

**RI NECAP Results for Students in Grade 11  
October, 2007 Testing**

**QUESTION:** What gaps are there among student subgroups?

**SUPPORTING DATA:**

*Disaggregations*

|                   | Reading | Mathematics | Writing |
|-------------------|---------|-------------|---------|
| White             | 68      | 27          | 42      |
| Hispanic          | 40      | 6           | 21      |
| Black             | 41      | 6           | 22      |
| Asian             | 67      | 32          | 42      |
| American          | 38      | 14          | 22      |
| Poverty           | 44      | 9           | 23      |
| IEP               | 24      | 3           | 8       |
| ELL&<br>Monitored | 13      | 3           | 6       |

\*Final values may vary within one point

**ANALYSIS:**

- The gap between white students and students with IEPs or those who are receiving English language services are the widest across all three tested areas
- The gap between white students and all subgroups, with the exception of Asian students, is wide and unacceptable.
