# Southeast Asian Ethnicity Program Data

---

## Add 2 New Values

1. 40XX: Asian - not Southeast Asian
2. 40XX: Southeast Asian – ethnicity unknown

## New Validations

1. Asian - not Southeast Asian cannot be reported with any other Southeast Asian codes
2. Southeast Asian – ethnicity unknown cannot be reported with any other Southeast Asian codes

# Student Attendance Change

---

Require that an attendance record is reported for each enrolled student each day. In the past, only absences were required. Now we want to also collect when the student is present.

Because this will make increase the size of the data file, the submitted file should include the data for the current date along with the previous week only. If you need to make changes to data that is earlier than the previous week, that data can also be included.

# Enrollment Census Grade Configuration

---

Add a flag for any school that includes any grade K-8

Incorporated consumer education into their curricula

# Data Collection File Specifications
