<sup>1</sup>Approval status is based on the most recent decision letter sent to the State by the U.S. Department of Education. However, a State may be considered "In Process" if the State's science assessment has not yet been reviewed and approved. "In Process" indicates the assessment is currently under revision by the State or review by the U.S. Department of Education.

<sup>2</sup> If the State's alternate assessment is In Process, no achievement standard has been listed.

<sup>3</sup> Native language versions of assessments are reviewed by the Department for alignment with each State's assessment system and not reviewed for approval separately. Data updated as of December 20, 2009.
