

Action Plan: Problem Solving

Complete the grid below for each change of instruction not addressed in the PD Action Plan

Change in Instruction Not Addressed	How will the SIT ensure it will occur?	Why is PD not needed?	How will the change be monitored?
Develop problem of the week to address problem solving	This action step will be shared at the first staff meeting.	We had extensive PD during the 2006/2007 School year on the development of POW and the creation of rubrics to score POWs	The principal will periodically collect POW samples from each grade level for review.
