

## **NAESP Video Series – “Leaders and Learners”**

### **Principals: Leaders & Learners Part 1: Balance Management & Leadership Roles**

Balance Management & Leadership Roles focuses on the need to balance traditional management duties, instructional goals and vision for the future to create an education-centric community for students and adults. Balance Management & Leadership Roles illustrates the need to deal creatively with new educational and technological issues and the value of learner-centered leadership.

### **Principals: Leaders & Learners Part 2: Set High Expectations & Standards**

Set High Expectations and Standards focuses on the need to set challenging - yet attainable - goals that reflect the values and commitments of the school community. Set High Expectations and Standards also examines the importance of developing a school culture that is flexible, innovative and fosters student achievement.

### **Principals: Leaders & Learners Part 3: Demand Content and Instruction that Ensure Student Achievement**

Demand Content and Instruction That Ensure Student Achievement focuses on the importance of high-quality teachers, a challenging curriculum, and current technology and instructional materials to ensure student achievement of established academic standards. This volume also examines the need to continually test and review these materials through multiple forms of assessment and observation of classroom practices.

### **Principals: Leaders & Learners Part 4: Create a Culture of Adult Learning**

Create a Culture of Adult Learning examines the importance of providing quality, team-based professional development. Highly-qualified teachers and principals can produce greater leaps in student achievement when schools invest in teacher learning and provide opportunities for teachers to work, plan and think together.

### **Principals: Leaders & Learners Part 5: Use Multiple Sources of Data as Diagnostic Tools**

Part 5, Use Multiple Sources of Data as Diagnostic Tools, examines the importance of collecting and interpreting multiple sources of data to identify barriers to student achievement and teacher performance, spot areas in need of improvement, design effective classroom lessons, re-evaluate school goals and determine opportunities for professional development.

### **Principals: Leaders & Learners Part 6: Actively Engage the Community**

Part 6, Actively Engage the Community, illustrates the value of shared leadership, decision-making and responsibility for success to encourage community ownership of the school and the school's goals. This program also

emphasizes the importance of parental involvement in the school and the role of the school as a facilitator between families and community services.
