2. **Action Item**

2a. *Authorization for the Proposed Lease of Space from Schneider Electric for the College of Engineering during the Development of the new College of Engineering Building.*

President Dooley presented this item to the Council. The University of Rhode Island is preparing to begin the construction of the new College of Engineering which will be financed through the General Obligation Bonds approved by Rhode Island voters in 2014. The University will need to find swing space for the continuation of its programs through the course of that construction period.

The University is planning to use renovated space in Pastore and Morrill Halls on the Kingston Campus to address some of this need. However, significant additional space is needed to house the multiple Engineering College Departments including their teaching, research laboratory, and office functions currently housed in the five buildings that will be demolished to make space for the new facilities.

URI representatives have been involved in conversations with Schneider Electric to provide the remaining space needed to house these programs for the 4-year construction period. Schneider Electric is an international corporation located in West Kingston approximately 1.5 miles from the University’s Kingston campus. These conversations have resulted in a plan for the proposed lease of 30,500 square feet of space on the first and second floor levels of their facility. The plan provides for the need to renovate this space to accommodate the College’s activities and would be amortized over the course of the proposed 4-year lease.

The costs of alternative swing space located on the campus itself have been explored by University officials. They have determined that swing space on campus would result in additional costs of reconstruction as well as a delay in the beginning of the project by five months. The delay in construction alone would result in an estimated $1.5M in escalation costs to the overall project.

President Dooley introduced Ben Smith from Schneider Electric. The lease to Schneider would help to upgrade the space in the current buildings. There is a great deal of enthusiasm regarding this lease.

Chair Foulkes stated that there was already money in the budget to cover this lease.

President Dooley anticipated costs and they cannot use bond money to pay for the lease.
On a motion duly made by Mr. Duffy and seconded by Mr. Smith, it was

**VOTED:** THAT The Council on Postsecondary Education approve the proposed lease of Space from Schneider Electric for the College of Engineering during the Development of the new College of Engineering Building; and

**THAT** The Council on Postsecondary Education authorize the Chairman to execute the final form of the Lease subject to the review and advice of General Counsel and subject to review and approval by the State Properties Committee.

**VOTE:** 7 members voted in the affirmative and no members voted in the negative as follows:

**YEAS:** Michael Bernstein, Barbara Cottam, Dennis Duffy, William Foulkes, Senator Thomas Izzo, John J. Smith Jr. and Dr. Jeffery Williams.
