

# Technology Readiness Tool

Enhancements to be implemented January 14

1. **Home Page:** The content will stay the same, but will be arranged in a more user-friendly manner
2. **Completion Status Changes**
  - a. Change in Setup Menu categories
    - i. **Administrative**
      1. **Organization Management** – Survey Items have been removed and placed into the Readiness School Survey Questions section found on the Setup tab
      2. **User Accounts & Permission** – No changes to this section
    - ii. **Data Management**
      1. **Device Inventory Management** – No changes to this section
      2. **Readiness School Survey Questions** – This section has been removed from the Organization Management's User Interface section and placed into its own category under Data Management.
      3. **Mark Data Entry Complete** – This section was removed from the Readiness School Survey Question's User Interface section into its own category under Data Management. Please note: the location of this section in the batch file import/export process remains in the School Survey Template.
    - iii. **Bulk Setup**
      1. **Batch File Importing/Exporting** – No changes to this section
  - b. User upload process and file templates will not change
3. **Device Layout:** Additional options have been added to the Device File layout and template (these are necessary to allow schools to accurately describe their computers based on the Consortia minimum specifications).
  - a. Operating System
    - i. Windows Server 2003
    - ii. Windows Service 2008
    - iii. Windows Server 2012
    - iv. Linux Ubuntu v4 – 8
    - v. Linux Ubuntu v9 – 12 - Previous values of linux\_ubuntu which equaled Linux Ubuntu have been set to linux\_Ubuntu\_9\_thru\_12 = Linux Ubuntu v9 – 12. If those values need to change, please update accordingly.
    - vi. Linux Ubuntu v13 or greater
    - vii. Linux Fedora - Previous values of linux\_fedora which equaled Linux Fedora have been set to linux\_fedora\_1\_5 = Linux Fedora v1 – 5. If those values need to change, please update accordingly.
    - viii. Linux Fedora v6 (K12TSP 4.2+) thru 15
    - ix. Linux Fedora v16 or greater
    - x. Mac OS X 10.1 – 10.4.3 - Previous values of mac\_101\_thru\_105 which equaled Mac OS X 10.1 - 10.5 have been set to mac\_101\_thru\_1043 = Mac OS X 10.1 - 10.4.3. If those values need to change, please update accordingly.
    - xi. Mac OS X 10.4.4
    - xii. Mac OS X 10.5
    - xiii. Mac OS X 10.6 - Previous values of mac\_106\_thru\_107 which equaled Mac OS X 10.6 - 10.7 have been set to mac\_106 = Mac OS X 10.6. If those values need to change, please update accordingly.
    - xiv. Mac OS X 10.7

## Technology Readiness Tool

Enhancements to be implemented January 14

- xv. Android 3.x example: Honeycomb
  - xvi. Android 4.x example: Ice Cream Sandwich, Jelly Bean
  - xvii. Google Chrome V18 or less - Previous values of google\_chrome have been set to google\_chrome19 = Google Chrome v19 or greater. If those values need to change, please update accordingly.
  - xviii. Google Chrome v19 and greater
  - xix. AMD Fusion (HSA)
  - b. Memory of the Device
    - i. <128 MB
    - ii. 128 MB
    - iii. 256 MB - Previous values of 1 which equaled <512 MB have been set to 256. If those values need to change, please update accordingly.
- 4. New - School Exception Reports**
- a. **Not Complete** report: Data entry complete indicator is not marked Yes
  - b. **No Device Entry** report: No device data have been entered
  - c. **No Activity** report: No device or readiness survey question data have been entered
  - d. **Potentially Missed Survey Questions** report: Some device data have been entered, but no readiness survey question data have been entered
  - e. **Potentially Missed Device Entry** report: Some readiness survey question data have been entered, but no device data have been entered
  - f. **Potentially Complete** report: Device and readiness survey question data have been entered, but data entry complete indicator is not marked Yes
  - g. **Potentially Not Complete** report: Data entry complete indicator is marked Yes, but some readiness survey question and device data have not been entered
- 5. Network Indicator report**
- a. New column headings and calculations within the results section
  - b. Quick look into Min/Rec Requirements. Display found in magnifying glass icon
  - c. Results will display "Greater Than" symbol when value greater than 100%
