Office of Educator Excellence and Certification Services
Objectives

• Provide an overview of newly approved certification regulations process

• Outline effective dates of new certification regulations

• Explain new reinstatement of expired certificates requirements

• Explain new certification renewal requirements

• Share new certification pathways to certification

• Share changes to existing certificate areas

• Explain professional learning, professional learning plans, impact on certification renewal requirements and describe phase in of Professional Learning Units (PLUs)
New Certification Regulations Approved

On December 4, 2018, the Council on Elementary and Secondary Education voted unanimously to approve updated educator certification regulations.

Guiding principles for the new regulations include:

- Increasing practical experience for teacher pre-service candidates
- Opening additional pathways into the profession for shortage areas
- Re-establishing an ongoing professional learning focus for all educators

RIDE received input and feedback from:

- Stakeholder meetings
- Four public hearings
- 14 public meetings
- Review of approx. 400 pieces of written feedback
Effective January 1, 2019

*Section 1.14 of Regulations Governing Certification in RI
Educator Evaluation and Certification

• Effective January 1, 2020, final effectiveness ratings will no longer be a requirement for renewal or progression of certificates.

• Educator evaluation is an important process to provide educators with feedback and support that lead to continuous improvement of professional practice. Information from evaluation may help planning for professional learning.

• Certificates expiring in 2019 are required to have effectiveness ratings as part of renewal
Professional Learning For Certification

• Effective January 1, 2020, professional learning will be required for the renewal of certificates.

• RIDE views professional learning as critical for educators to maintain and grow the knowledge and skills they need to effectively educate students.

• To encourage cohesive systems of professional learning that support educators, the regulations also require districts to create professional learning plans.
Professional Learning Units (PLU) Required*

• Professional learning will be measured using the Professional Learning Unit (PLU).

• PLU requirements will be phased in starting with certificates that expire in August of 2020.

• Teachers renewing professional or advanced certificates will be required, once fully phased in, to complete the equivalent of 20 professional learning units annually.

• Teachers seeking to transition from initial to professional certificates will be required, once fully phased in, to complete the equivalent of 30 professional learning units annually.

* Sections 1.8.2.A.3, 1.8.3.A.3 of the Regulations Governing Certification in RI
Professional Learning Units (PLUs) Phase-In

Activities for PLUs*

General categories are listed below that might help everyone understand what can count for PLUs. These categories include activities that improve, enhance or increase any of the following:

- Subject matter/content knowledge and skills
- Pedagogical knowledge or pedagogical content knowledge and skills
- Curriculum implementation knowledge and skills
- Enhance educator effectiveness

* Section 1.8.5.E.7 of Regulations Governing Certification in RI
Example Activities*

- **Site-Based Professional Learning** such as induction, structured PLCs, lesson study and student work analysis
- **Coaching** involving trained coaches utilizing observation / feedback cycles
- **Proficiency Based Learning** such as micro credentials
- **University Coursework** at accredited institutes of higher education
- **National Board Certification**
- **3rd party facilitated Workshops**

**Note:** Activities that do not directly relate to improving educator practices, such as general logistics, school daily operations, safety trainings, and most committee work do not qualify for professional learning units. These are important activities for schools but are not considered professional learning.

*Section 1.8.5.E of Regulations Governing Certification in RI*
Assigning Value to Activities*

To help translate activities into PLUs, guidance is provided for how to convert common professional learning activities into units.

• 1 hour of a professional learning activity = 1 PLU
• 1 college credit = 15 PLUs
• 1 demonstrated competency = 5-10 PLUs
• 1 component of National Board Certification = 45 PLUs
• Completion of National Board = 180 PLUs
• Renewal of National Board = 90 PLUs

*Section 1.8.5.F of Regulations Governing Certification in RI
Approval and Record Keeping of PLUs*

- All educator PLUs will be approved by the district superintendent or designee.
  - Decisions on approval will be consistent with the regulations
  - Once there is a professional learning plan in place, decisions will also be consistent with that plan

- PLUs for superintendents will be approved by the chair of the school committee.

- Educators are responsible for the completion of PLUs and must maintain records of all activities that attest to participation in the activity and the PLUs earned.

- Records must be available upon request to RIDE, if selected for audit.

- RIDE will audit a percentage of renewal applications each year to ensure the professional learning requirement is being implemented as required by the new regulations.

* Sections 1.8.5.D, 1.8.5 I, 1.8.5 J of Regulations Governing Certification in RI
Professional Learning Plans*

LEAs should support educators in meeting the professional learning requirements. To that end, each LEA must create, in collaboration with their educators, a professional learning plan. These plans must include:

- Identification of needs / interests of educators based on student data, educator evaluation, surveys, etc.
- Alignment to educator, district, and school needs through review of existing strategic / school improvement plans
- Examples of allowable activities, consistent with regulations
- Mechanisms for the approval of PLUs
- Structures and plans to ensure opportunities for professional learning activities that take place within the school context over time and are ongoing rather than reliance on one-time activities.
- Alignment and differentiation to ensure relevance

* Section 1.8.5.C of Regulations Governing Certification in RI
