

§220.16 Procurement standards.

(a) *General.* State agencies and school food authorities shall comply with the requirements of this part 2 CFR part 200, subpart D and USDA implementing regulations 2 CFR part 400 and part 415, as applicable, which implement the applicable Office of Management and Budget Circulars, concerning the procurement of all goods and services with nonprofit school food service account funds.

(b) *Contractual responsibilities.* The standards contained in 2 CFR part 200, subpart D and USDA implementing regulations 2 CFR part 400 and part 415, as applicable, do not relieve the State agency or School Food Authority of any contractual responsibilities under its contract. The State agency or School Food Authority is the responsible authority, without recourse to FNS, regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into in connection with the Program. This includes but is not limited to: Source evaluation, protests, disputes, claims, or other matters of a contractual nature. Matters concerning violation of law are to be referred to the local, State or Federal authority that has proper jurisdiction.

(c) *Procedures.* The State agency may elect to follow either the State laws, policies and procedures as authorized by 2 CFR 200.317, or the procurement standards for other governmental grantees and all governmental subgrantees in accordance with 2 CFR 200.318 through 2 CFR 200.326. Regardless of the option selected, States must ensure that all contracts include any clauses required by Federal statutes and executive orders and that the requirements of 2 CFR 200.326 are followed. The school food authority may use its own procurement procedures which reflect applicable State and local laws and regulations, provided that procurements made with nonprofit school food service account funds adhere to the standards set forth in this part 2 CFR 200.326 and Appendix II, Contract Provisions for Non-Federal Entity Contracts Under Federal Award as applicable. School food authority procedures must include a written code of standards of conduct meeting the minimum standards of 2 CFR 200.318, as applicable.

(1) *Pre-issuance review requirement.* The State agency may impose a pre-issuance review requirement on a school food authority's proposed procurement. The school food authority must make available, upon request of the State agency, its procurement documents, including but not limited to solicitation documents, specifications, evaluation criteria, procurement procedures, proposed contracts and contract terms. School food authorities shall comply with State agency requests for changes to procurement procedures and solicitation and contract documents to ensure that, to the State agency's satisfaction, such procedures and documents reflect applicable procurement and contract requirements and the requirements of this part.

(2) *Prototype solicitation documents and contracts.* The school food authority must obtain the State agency's prior written approval for any change made to prototype solicitation or contract documents before issuing the revised solicitation documents or execution of the revised contract.

(3) *Prohibited expenditures.* No expenditure may be made from the nonprofit school food service account for any cost resulting from a procurement failing to meet the requirements of this part.

(d) *Buy American—(1) Definition of domestic commodity or product.* In this paragraph (d), the term “domestic commodity or product” means—

(i) An agricultural commodity that is produced in the United States; and

(ii) A food product that is processed in the United States substantially using agricultural commodities that are produced in the United States.

(2) *Requirement*—(i) *In general*. Subject to paragraph (d)(2)(ii) of this section, the Department shall require that a school food authority purchase, to the maximum extent practicable, domestic commodities or products.

(ii) *Limitations*. Paragraph (d)(2)(i) of this section shall apply only to—

(A) A school food authority located in the contiguous United States; and

(B) A purchase of domestic commodity or product for the school breakfast program under this part.

(3) *Applicability to Hawaii*. Paragraph (d)(2)(i) of this section shall apply to a school food authority in Hawaii with respect to domestic commodities or products that are produced in Hawaii in sufficient quantities to meet the needs of meals provided under the school breakfast program under this part.

(e) *Cost reimbursable contracts*—(1) *Required provisions*. The school food authority must include the following provisions in all cost reimbursable contracts, including contracts with cost reimbursable provisions, and in solicitation documents prepared to obtain offers for such contracts:

(i) Allowable costs will be paid from the nonprofit school food service account to the contractor net of all discounts, rebates and other applicable credits accruing to or received by the contractor or any assignee under the contract, to the extent those credits are allocable to the allowable portion of the costs billed to the school food authority;

(ii)(A) The contractor must separately identify for each cost submitted for payment to the school food authority the amount of that cost that is allowable (can be paid from the nonprofit school food service account) and the amount that is unallowable (cannot be paid from the nonprofit school food service account), or;

(B) The contractor must exclude all unallowable costs from its billing documents and certify that only allowable costs are submitted for payment and records have been established that maintain the visibility of unallowable costs, including directly associated costs in a manner suitable for contract cost determination and verification;

(iii) The contractor's determination of its allowable costs must be made in compliance with the applicable Departmental and Program regulations and Office of Management and Budget cost circulars;

(iv) The contractor must identify the amount of each discount, rebate and other applicable credit on bills and invoices presented to the school food authority for payment and identify the amount as a discount, rebate, or in the case of other applicable credits, the nature of the credit. If approved by the State agency, the school food authority may permit the contractor to report this information on a less frequent basis than monthly, but no less frequently than annually;

(v) The contractor must identify the method by which it will report discounts, rebates and other applicable credits allocable to the contract that are not reported prior to conclusion of the contract; and

(vi) The contractor must maintain documentation of costs and discounts, rebates, and other applicable credits, and must furnish such documentation upon request to the school food authority, the State agency, or the Department.

(2) *Prohibited expenditures*. No expenditure may be made from the nonprofit school food service account for any cost resulting from a cost reimbursable contract that fails to include the requirements of this section, nor may any expenditure be made from the nonprofit school food service account that

permits or results in the contractor receiving payments in excess of the contractor's actual, net allowable costs.

(f) *Geographic preference.* (1) School food authorities participating in the Program, as well as State agencies making purchases on behalf of such school food authorities, may apply a geographic preference when procuring unprocessed locally grown or locally raised agricultural products. When utilizing the geographic preference to procure such products, the school food authority making the purchase or the State agency making purchases on behalf of such school food authorities have the discretion to determine the local area to which the geographic preference option will be applied;

(2) For the purpose of applying the optional geographic preference in paragraph (f)(1) of this section, "unprocessed locally grown or locally raised agricultural products" means only those agricultural products that retain their inherent character. The effects of the following food handling and preservation techniques shall not be considered as changing an agricultural product into a product of a different kind or character: Cooling; refrigerating; freezing; size adjustment made by peeling, slicing, dicing, cutting, chopping, shucking, and grinding; forming ground products into patties without any additives or fillers; drying/dehydration; washing; packaging (such as placing eggs in cartons), vacuum packing and bagging (such as placing vegetables in bags or combining two or more types of vegetables or fruits in a single package); addition of ascorbic acid or other preservatives to prevent oxidation of produce; butchering livestock and poultry; cleaning fish; and the pasteurization of milk.
