SECTION 1- GENERAL INFORMATION

1.1 RFP Name and Issue Date

NAME: ERATE ELIGIBLE DATA SERVICES
FOR THE RHODE ISLAND DEPARTMENT OF EDUCATION

DATE ISSUED: September 15, 2010

MANDATORY: RETURN COMPLETED "INTENT TO RESPOND"
REGISTRATION FORM APPENDIX A ON OR BEFORE
October 15, 2010.

1.2 Pre-Bid Conference Information

DATE: Friday, October 22, 2010

TIME: 1:00 PM

LOCATION: Room 501, RI Department of Education, Shepard Building 5th
Floor, Providence RI, 02903

MANDATORY: NO

If you need any special accommodations due to a disability, please indicate on the "Intent to Respond" Registration Form described in Section 1.1.

1.3 Submission Deadline

An unbound original and three (3) bound copies of the proposal must be received by the Point of Contact, at the address listed in below, no later than 10:00 AM (local time) on November 5, 2010

All proposals must include an electronic version (CD) of the Written Proposal in MS Word format and an electronic version (CD) of the Financial Proposal in MS Excel format. Please ensure that the CDs are labeled with the Date, RFP title and Vendor name and packaged with the original copies of the response.

Proposals received by the Point-of-Contact after the due date will not be considered. Proposals may not be submitted by e-mail or facsimile. Proposals will be opened publicly on November 9, 2010 at 1:00PM, at the RI Department of Education address.

1.4 Point Of Contact

The sole Point-of-Contact in the State for purposes of this RFP prior to the award of any contract is:

Karen Cooper
ERATE/RITEAF Project Manager
Department of Elementary and Secondary Education
255 Westminster St./Sixth Floor
Providence, Rhode Island 02903
Telephone #: 401-222-4694
Fax #: 401-222-2823
E-mail: Karen.Cooper@ride.ri.gov

Questions must be submitted in writing (email, fax or mail) and must arrive at least 10 business days prior to the RFP Submission deadline. Questions received prior to the Pre-Bid conference will be addressed at the conference. Oral questions will be permitted at the Pre-Bid conference. All questions answered will be posted to the electronic list of those who have indicated by mail or Email registration their Intent to Respond. Vendor representatives shall not otherwise communicate with the state point of contact or any other bid reviewer with regard to any bid proposal until after the awards have been announced.

For your convenience an electronic copy of this solicitation is provided at <http://www.ride.ri.gov/instruction/intech/E-Rate/ERate1.aspx>

Although it is the Vendor's obligation to check our website <http://www.ride.ri.gov/instruction/intech/E-Rate/ERate1.aspx> for amendments to the original solicitation, if you register your "intent to respond" by email with Pat.Kozaczka@ride.ri.gov you will be notified, by email, if any substantial changes are made to the solicitation. Failure to review amendments to the solicitation does not relieve the Vendor from complying with all terms of any such amendment.

Proposals submitted in response to this RFP are irrevocable for 120 days following the closing date of proposals. This period may be extended at the Point of Contact's request with the Vendor's written agreement.

1.5 Oral Presentation

Vendors may be required to make oral presentations to the Department representatives. Significant representations made by a Vendor during the oral presentation must be reduced to writing. All such representations will become part of the Vendor's proposal and are binding if the vendor is awarded the contract.

Typically, oral presentations shall follow a specified format and will generally be limited to one (1) hour of presentation time, followed by one (1) hour of questions and discussion. The Point of Contact will issue a letter with details and instructions prior to the presentations, if required.

The presentation may include but not be limited to the following items in the Vendor's technical proposal.

- Description of how the proposed services will be provided
- Description of how the Vendor plans to meet the identified requirements in the RFP,
- Experience and capabilities
- Description of the organization
- Which organizational unit will provide the different services (Show on an organization chart)
- Description of how the Vendor plans to meet RFP reporting and data base requirements as well as the requirements related to the E-Rate program.
- Description of references and the scope of services to other clients by each reference

1.6 Corporate Overview and Financials

Vendors must provide a Corporate Overview including a narrative of their ability to provide the services required in this RFP and financial reports to demonstrate financial stability.

1.7 References

Vendors must provide 3 references of similarly situated customers (size, services and type of business, with particular emphasis on K12 educational institutions) including:

Company (or institution) Name
Contact Name
Contact Phone

1.8 Access to Public Records Act Notice

Vendors shall clearly mark those portions of its proposal that it considers confidential, proprietary commercial information or trade secrets. Vendors are advised, however, that, upon request for information from a third party, the Department is required to make an

independent determination of whether the information must be disclosed under the R.I. Access to Public Records Act, 38-2-1 et seq.

1.9 Subcontractors

The selected Vendor(s) shall be responsible for all products and services offered in its proposal. Subcontractors must be identified and a complete description of their role relative to the proposals must be included in the Vendor's proposals.

1.10 Incurred Expenses

The Department will not be responsible for any costs incurred by a Vendor in preparing and submitting a proposal, in making an oral presentation, in providing a demonstration, or in performing any other activities relative to this RFP.

1.11 Protests/Disputes

Any protest or dispute related to this RFP shall be subject to the provisions of the Rhode Island Division of Public Utilities and Carriers rulings relative to the enacting legislation that funds this program and assigned duties for administering it, as amended in Rhode Island General Laws, Section 39-1-61 and effective May 9, 2005. An unsuccessful bidder may, within seven (7) calendar days of the awarding of bids, file an appeal with the Division of Public Utilities and Carriers. The Division will review any claims that the Department of Education did not comply with terms of the RFP or with the Division's Rules. All other appeals shall be made through the FCC's appeal process. The Department of Education shall have seven days to file a response. An original and nine (9) copies of any appeal shall be sent to:

Luly E. Massaro, Division Clerk
Attn.: Thomas F. Ahern, Administrator
Division of Public Utilities and Carriers
89 Jefferson Boulevard
Warwick, Rhode Island 02888

1.12 Mandatory Contractual Terms

By submitting an offer in response to this RFP, a Vendor, if selected for award, shall be deemed to have accepted the terms of this RFP and the required terms of the RIDE Contract contained in Attachment C. A signed checklist (Attachment B) must be attached to your proposal. **Any exceptions to this RFP or the Contract must be clearly identified in the Exceptions Portion of the checklist.** A proposal that takes exception to mandatory terms may be rejected.

SECTION 2 – SCOPE OF WORK

2.1 Purpose and Background

The Department of Education and the Library network operate a high-speed wide area network(s) through relationships with consortia serving each type of entity with equitable access to network services regardless of location for all school or library sites. It is comprised of a wide range of network circuits inter-connected to create an information network. The Department and the Libraries have a full range of applications that can benefit from the services specified in this RFP including LAN inter-networking, IP-based video-conferencing, and a variety of services that move across these networks.

The Rhode Island Department of Elementary and Secondary Education's (RIDE) Office of Instructional Technology of the State of Rhode Island, also referred to as "the Department", is issuing this Request for Proposals (RFP) to procure Digital Data Services from 128 Kbps to OC-12 speeds using a variety of network technologies which might include Frame Relay (FR), Asynchronous Transfer Mode (ATM), Ethernet, Fiber Optics, SMDS, or any substantially equivalent data transport services at data rates from 128kb/sec to 622mb/sec to support telecommunications needs of the K-12 public and private schools, the public and selected private libraries, and consortia serving the needs of such entities.

The Department currently contracts with several vendors for over 450 circuits. The Department wishes to reconsider the current agreement potentially replacing the current Vendors and/or adding new Vendors and new technologies to the mix of services offered to its constituents. The total number of circuits by the end of FY2011 (June 30, 2011) is estimated at 450. As many as 87 are not in consideration for bids this year as they are under a multiyear contract, ending in 2012.

The telecommunications services that will be considered for purchase must be deemed eligible in the TELECOMMUNICATIONS FUNDING CATEGORY on the most recent USAC Schools & Libraries Eligible Service List:

<http://www.universalservice.org/sl/tools/eligible-services-list.aspx>

All telecommunications carriers are required under FCC rules to be common carriers and to file Form 499A (Telecommunications Reporting Worksheet).

The intent of this solicitation is to establish a RIDE Qualified Vendor List with pre-negotiated pricing, terms and conditions that are in accordance with the RI Telecommunications Education Access Fund Rules and Regulations and Federal E-Rate Requirements. Vendors must meet all minimum qualifications to be placed on the RIDE Qualified Vendor List. Prior to the E-Rate Form 471 filing deadline (Approximately February 1st), the Department will negotiate installation dates for specific circuits with these vendors and enter into one or more contracts with one or more successful vendors. Inclusion on the RIDE Qualified Vendor List is no guarantee of income.

The Department or its authorized representatives must provide a Purchase Order (PO) for service provided by the Vendor under this agreement. Any services provided by the Vendor without a Department-authorized PO are not eligible for RIDE E-Rate filing services or for reimbursement under RI Telecommunications Education Access Funds managed by RIDE.

The Department will file the 470 and 471 forms for E-Rate reimbursements for all entities that purchase services through a RIDE-authorized PO. Due to the complexity of the E-Rate process, E-Rate funding is often awarded well after the award year has begun. The Department expects that Vendor's invoice will reflect the Department's total cost and indicate the discounted amount for services as determined by the Department as approved by the Schools and Libraries Division (SLD or ERATE program). The vendor would apply for the ERATE reimbursement directly from the SLD using the Service provider Invoice Form (SPIF)(FCC 474) once the award has been made. See Section 2.10. Exceptions to this requested processing by the Department should be noted.

2.2 Contract Type

The contract that results from this RFP shall typically be a Fixed Unit Price contract for **month-to-month** service with indefinite quantities and specific prices for installation. Standard installation prices must be specified with your response. The E-Rate process does not have a mechanism to accept price ranges or Individual Case Basis (ICB) quotes, so **NO ICB quotes will be considered**. The Department makes no commitment to guarantee a minimum amount or duration of the service. All contracted services shall be provided as needed by the Department and for a duration agreeable to the Department and noted in the contract. The Federal E-Rate program specifically excludes reimbursement for transport service termination charges. As a result, the Department will not accept any contracts that include termination liabilities. Vendors should be aware that current vendor agreements provide for no installation charges. A multiyear contract may be acceptable to the Department, predicated on there being significant price advantages to the Department. Such agreements may have specified durations.

2.3 Contract Duration

The Department has adopted the spirit of the E-Rate program and the RI legislation to ensure that service agreements are competitive with current market conditions. In accordance with E-Rate guidelines the Department chooses to re-bid services every year, but the Department **WILL WRITE CONTRACTUAL AGREEMENTS FOR UP TO 5 YEARS WHEN PRICING AND TERMS ARE FAVORABLE TO THE DEPARTMENT'S INTEREST IN GAINING LOWEST PRICE FOR BEST SERVICES**. As a result, the term of this contract **MAY BE** for a period of one (1) year commencing on July 1, 2011 and terminating on June 30, 2012 **OR EXTEND FOR 1 OR MORE YEARS, UP TO FIVE, TERMINATING ON JUNE 30, 2016 OR ANY ANNUAL PERIOD LESS THAN FIVE YEARS**. In this past year, a number of circuits (87) were

placed under 3 year agreement as indicated in list of circuit locations accompanying this RFP.

Agreements longer than one year are contingent upon adequate, continued funding from both state RITEAF and Federal E-Rate programs. It is understood and agreed that in the event that less than full federal funding or other funding is received by RIDE due to the failure of the Contractor to comply with the terms of this agreement or E-Rate program rules, the Contractor is liable to the State of Rhode Island for an amount equal to the amount of the denied funding. The amount of the denied funding shall be payable upon demand of RIDE.

RIDE is proceeding on a one year service cycle, unless otherwise contracted, with each one year service cycle ending on June 30. The vendor agrees to no billing overlap and billing will cease for all contracted services as of June 30, 2012 unless the Department, at its discretion notifies the vendor in writing before the end of the service cycle that it wishes to keep lines in service beyond the end of the contract.

The Vendor agrees to continue invoicing such services under the terms of the original contract.

2.4 Service Ordering/Termination Process and Purchase Orders

- 2.4.1 The Vendor shall receive purchase orders (POs) from the Department, or department-authorized entities (i.e. RINET or OSL) representing the eligible schools and libraries. A PO from RIDE, or an authorized representative of the Department is the only means for the Vendor to provide services under the contract. In the event the Department deems it appropriate and necessary to change the process or list of authorized representatives the Department will notify all Vendors on the Qualified Vendor list.
- 2.4.2 Within ten (10) business days after the receipt of a PO from an authorized representative of the Department, the Vendor shall respond by e-mail to the authorized representative of the Department with installation/termination due dates, locations, service types, circuit IDs, associated information (i.e. PVCs etc.) and customer account number for the requested services.
- 2.4.3 For any services at 2 Mb and below, the due date stated shall be no more than thirty (30) calendar days from the Vendor's receipt of the PO or the July 1 service start date, whichever occurs later. For any service above 2MB and up to and including 50 Mb, the due date stated shall be no more than forty-five (45) calendar days from the Vendor's receipt of PO, or the service start date, whichever occurs later. For any service above 50 Mb, the due date stated shall be no more than sixty (60) calendar days from the Vendor's receipt of the PO, or the service start date, whichever occurs later. Should the actual provision of services by the vendor at a specific location not occur by the due date, the Department may in its discretion cancel the circuit.

- 2.4.4 The Vendor shall complete installation/termination by the due date stated in the Vendor's e-mail. Failure to meet promised due dates will weigh unfavorably on future business opportunities for the Vendor. The Vendor should quantify its remedy (financial or otherwise) for a missed due date.
- 2.4.5 The Vendor shall agree to work through the Agency point-of-contact shown on the PO for scheduling all on-site activity. The Vendor's installation due date stated shall take under consideration that access to some government facilities may be limited to normal business hours.
- 2.4.6 The Vendor shall be responsible for any and all installation coordination necessary to provide facilities premise to premise. At all times, the Vendor shall retain responsibility for any subcontracted services.
- 2.4.7 Should the Vendor not provide the services within the stated due date, the Department reserves the right to cancel the PO without further obligation.
- 2.4.8 The authorized representative of the Department may delay or cancel the installation date without penalty for any service by notifying the Vendor at least fifteen (15) calendar days before the stated installation due date.

2.6 Service Offerings

The Vendor should provide a complete technical service description for each service offered. Description must include:

- Service Specifications
- Network Architecture
- Offered speeds
- Network Interface(s)
- Detail of any limitations
(e.g. available only in certain areas)

The vendor should also specify how their network service(s) will interface with the existing RINET and OSL network(s) and what, if any, changes the end users will need to make in their networks. Any costs to connect into the Core network must be presented in Attachment C.

Please note: the Department is interested only in Data Transport Services. The Department will not purchase Internet or Value Added Services (e.g. email/filtering Spam protection) under this agreement.

Availability of line capacities that extend up to 10, 20, 50 and 100 Mb should be indicated and priced. Please include any relevant increments in your price table.

2.7 Network Availability and Repair Procedures

The Vendor shall be responsible for maintaining, on an ongoing basis, all necessary traffic and routing information to keep its monthly end-to-end network availability at 99.7% for each installed circuit. The Vendor shall make available to the authorized representative of the Department, any and all logs, records, maintenance reports, and other similar documentation which the authorized representative of the Department requests in order to investigate/validate outages. The requested information shall be submitted to the authorized representative of the Department by the end of the next business day.

The Vendor shall be responsible for the coordination of all repair activities with other service providers such as the LEC and OCC, appropriate consortia partners and other Vendors. The Vendor shall have coordination procedures for installation and repair and provide written updates of these procedures to the authorized representative of the Department prior to implementation.

The Department prefers the Vendor to provide a password protected problem-reporting system accessible via the Internet that authorized Department or school and library personnel may access to open trouble tickets 24 X 7 X 365 and use that system to track the ticket status and escalations. It shall be in a format acceptable to the Department and contain the following information:

- 1 Contact Name
- 2 Ticket Number
- 3 Circuit ID
- 4 Location
- 5 Date Opened
- 6 Time Opened
- 7 Date Closed
- 8 Time Closed
- 9 Duration
- 10 Trouble Type
- 11 Trouble Summary

The Vendor shall notify the authorized representative of the Department fifteen (15) calendar days in advance by email, for any planned service outages that may affect the Department's services provided by the Vendors. This notice shall include at a minimum the reasons for the planned service outages, the scope of the planned services outages and the expected duration of the planned service outage.

The Vendor should provide a complete Network Availability Statistics and Repair Procedures for each service offered. Description must include:

Current Statistics of network performance

Performance Guarantees and Remedies

Describe your capabilities for proactive monitoring of alarms and outages

Availability of performance statistics, perform testing, monitoring and reporting upon request of the Department.

Complete trouble-reporting procedures

Including proactive customer notification, response times and escalation procedures.

The Vendor should quantify its remedy (financial or otherwise) for a service outage.

2.8 Circuit Tracking

Please describe what level of circuit tracking the Vendor will provide to the Department.

Ideally the Department would prefer a secure password-protected database of circuit service records accessible via the Internet within thirty (30) calendar days of contract award. The database shall permit up to fifty (50) simultaneous designated users to search and perform sorts by any field and be in a format acceptable to the Department. No record in the database shall be deleted for the life of the contract.

The fields in the database shall be columns and the column headings and types of data to be entered are as follows:

- Community: (e.g. Barrington, Bristol-Warren, etc.)
- Site: (e.g. High School, Kickemuit Middle, etc.)
- Service Type: (e.g. ATM, FR, Frasi, Ethernet, XXXXX)
- Circuit ID: (e.g. 38ASST123456CM)
- Bandwidth: (e.g. DS-3)
- Committed Information Rate/PVC: (e.g. 768, 10MBP/S, etc.)
- Circuit Start Address: (Main St., Bristol, basement)
- Associated Circuit End Address: (255 Westminster St., Providence RI 02903, 3rd Floor)
- End to End Circuit Mapping Information
 - e.g. DLCI, VPI/VCI
 - Class of Service
 - Peak and Sustained rates
 - Etc.
- Service Due Date: (e.g. 08/28/03)
- Termination Date: (e.g. 05/01/02) Termination date means the date the service is disconnected for billing purposes
- Actual Install Date: (e.g. 08/26/03)
- Service Install Price: (e.g. \$459.34)
- Monthly Charges: (e.g. \$300.00)
- Purchase Order Number: (e.g. RIDE0104)
- Billing/Account Number: (e.g. 00000XYZ001)

The Vendor shall make updates no later than the end of the next business day following service addition/deletion/change.

2.9 Billing and Reporting

The Vendor should provide timely, clear and concise invoicing. Please provide a sample of an invoice for each service.

The Vendor shall invoice the Department at the actual contract price, but indicate on the invoice or by other suitable means the E-Rate Discounted amount in a manner that clearly identifies the federal E-Rate subsidy and distinguishes it from any other credits that may apply. See also, Section 2.10, E-Rate Reimbursement.

The Vendor must designate a person responsible to maintain the Department's account records, verify correct invoicing for each new install and each disconnect, explain invoices and correct any incorrect charges. An updated report of all the current bills, recent changes and any outstanding issues should be submitted to the Department on at least a monthly basis.

The vendor shall not bill for a new service installation or upgrade until said service is installed and operating successfully. There shall be no overlapping service costs, which is to say, service upgrade or downgrade charges should begin subsequent to, and not concurrently with terminated, or replaced, services. The Vendor shall not charge a fee for service termination. Any credits for cancelled or unfulfilled services must occur within the contract period to ensure accurate E-Rate reporting and reimbursement takes place. **The department will not accept late payment charges** for reasons explained in the next section. The Rhode Island state Department of Education is exempt from state and federal taxes. The Department will not accept added taxes and added charges to the pricing submitted by the Vendor, including but not limited to a gross earnings tax. If the Vendor feels there should be exceptions, please clearly state and explain in ATTACHMENT B – Vendor Checklist.

The Vendor shall prepare and submit to the authorized representative of the Department a closeout report due on the last day of the contract which includes any open issues and recommended solutions as well as a final inventory of all existing circuit/services and a listing of all terminated circuits in the same electronic format as the circuit database specified in Section 2.8. The Vendor shall cooperate with any successor to the contract with information and records a successor may require.

2.10 E-Rate Reimbursement

The Department requires that the Vendor comply with all the E-Rate rules and regulations. It is understood and agreed that in the event that less than full federal funding or other funding is received by RIDE due to the failure of the Contractor to comply with the terms of this agreement or E-Rate program rules, the Contractor is liable to the State

of Rhode Island for an amount equal to the amount of the denied funding. The amount of the denied funding shall be payable upon demand of RIDE.

In addition, the Vendor must certify that they have been approved by the SLD to provide service for all services offered for the E-Rate Program. The vendor should consult www.sl.universalservice.org for complete information.

The Department requests that the vendor provide invoices with the E-Rate discount already subtracted. In addition, the Department prefers that the Vendor seek reimbursement for the remaining charges directly from the Schools and Libraries Division (E-Rate) using the SLD's Service Provider Invoice Form (SPIF). Please describe any variance from this desired procedure in your response.

The time lag associated with the collection of RI Telecommunications Education Access Funds will inevitably result in late payments of invoices by the Department. In addition, persistent tardiness of E-Rate awards coupled with an extended SLD reimbursement process will delay payment of SLD percentage of the invoices, perhaps considerably. Awards to the Department for services have typically been made by the SLD well into the program year, often requiring adjustments to the discount percentage shown in the application. With this in mind the RIDE **will not accept late payment charges** for E-Rate Eligible circuit invoices provided under this RFP. The Department is obliged to pay for all provided services in the event of an award denial that is not the fault of the vendor.

Non-appropriation

Service awards made by the Department are a result of the RITEAF program, a legislative enactment that applies a surcharge on the land-based phone lines provided by Rhode Island's telecommunications vendors. The parties awarded service contracts hereto understand that the Department is dependent upon receiving continued appropriations or budgeted funds from the RITEAF program to continue this contract throughout its intended term. Notwithstanding any other provisions to the contrary, the Department may terminate this contract at the end of any fiscal period, if subsequent to its having employed reasonable, good faith efforts to maintain adequate appropriated and/or budgeted funds for the full term of the contract, such necessary appropriations and funds are not made available. In order to effectuate such termination the Department must give thirty (30) days written notice to the vendor that the necessary funding has been denied. If the Department terminates the contract pursuant to this Section, unless the following would affect the validity of the contract, the Department will not purchase, lease, rent, seek appropriations for, or otherwise obtain another contract serving the same function as this contract for the fiscal period in which such termination occurs or the next succeeding fiscal period and such an obligation will survive termination of this contract. Within thirty (30) days following such termination, the parties shall meet and make available to each other all information and documentation necessary in order to determine the amount of fees due to the vendor. No penalties, interest or indirect or consequential costs or damages shall be owed or paid by the Department upon such termination.

2.11 Insurance

The Vendor shall maintain property and casualty insurance with minimum limits sufficient to cover losses resulting from or arising out of Vendor action or inaction in the performance of the contract by the Vendor, its agents, servants, employees or subcontractors. Proof of insurance covering the contract period must be provided with the bid.

The Vendor shall maintain a policy of general liability insurance that is of the proper type and of sufficient limits that the Department, their officials, employees, their agents, servants, guests and subcontractors are reasonably covered in the event of injury or death. Proof of insurance covering the contract period must be provided with the bid. The Department shall be made an additional insured under said policy upon an award to the Vendor and shall provide the Department with a certificate of insurance verifying that the state and RIDE are additional insureds under said policy.

2.12 Tariff Filings

The Vendor agrees to file any necessary tariffs with the Federal Communications Commission and the RI Public Utilities Commission, as required by law, (collectively “the Tariffs”), which shall incorporate the rate-affecting terms and conditions contained in the contract documents, and which shall provide that the tariffs shall be construed in a manner that is consistent with the terms and conditions of this contract. In all cases, Department terms and conditions set forth in this RFP, including all appendices and the Contract take precedence over Tariff terms and conditions. Vendor agrees that it will not seek any future increase in the rates set forth in the Tariffs during the term(s) of the contract. Tariff rates shall be the same as those submitted in the Vendor’s Financial Proposal.

SECTION 3– EVALUATION CRITERIA AND SELECTION PROCEDURE

3.1 Evaluation Criteria

Evaluations will be based on the criteria set forth below. A contract and listing on the qualified Vendor list resulting from this RFP will be awarded to those Vendors that meet the mandatory qualifications and provide value to the Department.

The Department of Elementary and Secondary Education does not discriminate on the basis of race, color, religion, sex, sexual orientation, age, national origin, handicap or political belief in acceptance of services or employment in its programs or activities.

3.2 Evaluation Matrix

Criteria	Weight
Meets Mandatory Requirement	Mandatory
Pricing	40%
Technical Merit	30%
Vendor Qualifications	30%
TOTAL	100%

3.3 Selection Procedures

Selection Process Sequence

- The first level of review will be an evaluation for technical merit. During this review, oral presentations and discussions may be held. The purpose of such discussions will be to assure a full understanding of the Department’s requirements and the Vendor’s ability to perform, and to facilitate arrival at contract terms that will be most advantageous to the Department.
- Vendors must confirm in writing any substantive oral clarification of, or change in, their proposals made in the course of discussions. Any such written clarification or change then becomes part of the Vendor’s proposal.
- The Point of Contact will publish a “Qualified Vendor list”. Qualified Vendors will be explicitly notified. The list will be posted at <http://www.ride.ri.gov/instruction/intech/E-Rate/ERate1.aspx> at least 30 days prior to the E-Rate Form 471 filing deadline.

- The Department will require each Qualified Vendor to verify pricing and commit to installation dates for a specific list of circuits provided to each Vendor.
- The final award of services will be publicly announced with notice to all qualified vendors.
- Contracts will be signed with one or more qualified vendor(s) prior to submitting the E-Rate 471 Form.

The Point of Contact will re-bid data service annually in accordance with the Federal E-Rate rules and regulations and may add or delete Vendors at that time. A listed Vendor may offer lower pricing on approved services at any time. A listed Vendor may present new service offerings to the point of contact during a valid term. The Point of Contact may choose to add these new services to the approved list during a valid term.

THE DEPARTMENT WILL HOST A PRE-BID CONFERENCE:

DATE: October 22, 2010

TIME: 1:00 pm

LOCATION: Room 501, RI Department of Education, Shepard Building, 5th Floor, Providence, RI, 02903

ATTENDANCE IS NOT MANDATORY

NUMBER OF PEOPLE ATTENDING: _____

RIDE will make reasonable efforts to provide special accommodations required due to a disability. Please indicate here if any special accommodations are requested.

Should a future needs arise, please notify us at least 5 business days prior to the pre-bid conference.

ATTACHMENT B – Vendor Checklist Certification

Attention Bidders. This form must be filled out in its entirety. Failure to answer “Yes” to the mandatory requirements will result in disqualification.

RFP REQUIREMENTS (Mandatory)	YES	
Have answered all questions in the RFP.		
Have checked http://www.ride.ri.gov/Instruction/intech/E-Rate/ERate1.aspx for any amendments issued.		
Have provided Company Description and Financials.		
Have provided 3 customer references.		
Pricing is fixed/specified for one year.		
Agrees that added charges and taxes such as gross earnings tax will not be added beyond the fixed/specified price.		
Agree that pricing is valid for 120 days beyond bid opening or Best and Final Offer whichever is later.		
Agrees that late payment charges are waived for E-Rate related service payments during the program year.		
Have provided pricing in the format requested in Attachment D including cost to connect into the RINET and OSL Core Networks.		
Have clearly stated installation charges for services.		
Agree to make an oral presentation, if requested.		
Agree to include contract terms contained in Attachment C		
Accept that response documents are subject to Rhode Island’s Access to Public Records law.		
Have identified any use of Subcontractors.		
Agree that all services are offered on a month-to-month basis. Billing will start upon installation and end within 5 business days of a termination request. Charges will be pro-rated for partial months and services do not have any termination liabilities.		
Agrees that there will be no billing overlap and billing will cease for all contracted services at the end of the contract period on June 30 th		
Agree that pricing can be renewed at the Department’s option for 4 additional one-year terms. Vendor may lower rates at any time. Vendors may request the Department to add services to its offerings at any time.		
Agree to comply with terms listed in Section 2.4 Service Ordering/Termination Process and Purchase orders		
Have provided complete service descriptions(s) as requested in Section 2.6 including pertinent information regarding connecting to the RINET/OSL networks and changes to end-user networks.		
Have stated remedy for missed due dates		
Have stated remedy for service interruptions		
Agree to 99.7% network availability for each circuit		
Have provided details of trouble reporting procedures		
Have provided details of vendor provided circuit tracking		
Have provided details concerning billing and reporting		
Agree to insurance requirements in Section 2.11		
Certify that your company is authorized by the SLD to provide offered service under the ERate program.		
Agree to meet all SLD filing requirements		
Agree to meet all federal and local tariff requirements		
Understand evaluation criteria		
Understand that multiple awards may be made		
Understand that no minimum commitment or purchase is committed at any time prior to ERATE funding approval.		

RFP REQUIREMENTS – PREFERRED, not mandatory	YES	NO	ALTERNATIVE
Will invoice at the Department rates less the E-Rate discount			
Will apply for E-Rate reimbursement directly from the SLD using The Service Provider Invoice Form (SPIF)			
Will price at state’s lowest quoted prices for all line capacities when total network cost for awarded services exceeds \$500,000.			
Prices for multi-year contracts will be lowered at each contract anniversary to reflect best statewide pricing.			

Explicitly list any exceptions to the solicitation requirements and proposed alternative solutions (attach additional sheets, if necessary)

Exceptions	Comment
Please describe any exceptions made in the RFP Response	

I certify that I have reviewed the commitments made in this RFP response and that I am authorized to commit my firm to the terms and conditions.

ATTACHMENT C – Required Contract Terms

Article 1

Delays. Whenever the Contractor has knowledge that any actual or potential situation is delaying, or tends to delay the timely performance of work under this Agreement, the Contractor shall immediately give written notice thereof, including all relevant information with respect thereto, to RIDE.

Article 2

Withholding of Payments. The contractor shall, in a satisfactory and proper manner in accordance with industry standards, complete all obligations and duties as stipulated in this Agreement. Failure of the Contractor to perform or deliver required work, services, or reports under this Agreement may result in the withholding of payments by RIDE to the Contractor.

The Contractor understands and agrees that failure to meet its requirements under this Agreement may result in withdrawal of other state or federal funds that may have been made available to the Contractor hereunder, at the option of RIDE.

Article 3

Termination of Agreement. In the event that either of the parties materially fails to perform its obligations under this Agreement, the other of the parties may terminate this Agreement upon written notification of termination setting forth the nature of the failure to perform said obligations under this Agreement. Prior to termination, the terminating party shall give the other party thirty (30) days to cure the alleged defect or otherwise commence activities designed to remedy the alleged defect.

RIDE may, without cause, terminate this Agreement at any time upon giving sixty (60) days advance notice in writing to the Contractor. The above mentioned sixty (60) days written notice notwithstanding, the State expressly reserves the unilateral right to terminate, amend, and/or reduce services and payments under this Agreement, effective immediately upon written notice to the Contractor in the event that the funding underlying the participation of RIDE is eliminated, limited or curtailed.

In the event of termination by either party, all property and finished or unfinished documents, data, studies, and reports prepared by the Contractor under this Agreement, shall be assigned as described herein. Notwithstanding the above, the Contractor shall not be relieved of liability to RIDE for damages sustained by RIDE by virtue of any breach of this Agreement by the Contractor; and RIDE may withhold payment to the Contractor for the purpose of setoff until such time as the exact amount of damages due to RIDE from the Contractor is determined. Notice of the effective date of termination will include the reports that must be completed.

In the event of termination by either party, final payment by RIDE to the Contractor for work and services and reasonable prorated installation costs provided by the Contractor under this Agreement up to the effective date of termination shall be made in proportion to work completed and allowable expenses incurred, in accordance with the principles of cost reimbursement, agreements and contracts. Notwithstanding the foregoing, costs related to any reports required to be completed after the effective date of termination will be reimbursed.

Article 4

Indemnification and Insurance. The Contractor shall hold harmless and indemnify the State of Rhode Island, RIDE, and their officers, employees, and agents from and against all liability, damage, loss, claims, demands, and actions of any nature whatsoever, including the cost of defending any action (including reasonable attorneys fees), which arise out of or are connected with, or are claimed to arise out of or be the result of the intentional misconduct or negligence of Contractor in connection with any of the services provided to the State under this Agreement. The foregoing provision shall not be deemed to be released, waived or modified by reason of any insurance provided by the Contractor under the provisions of this Agreement. Contractor agrees to add the State of Rhode Island and RIDE as additional insureds under its general liability policy and to provide RIDE with a certificate of insurance verifying that the State and RIDE are additional insureds under said policy.

Article 5

On-Site Inspection. The Contractor agrees to permit on-site monitoring, evaluation, and inspection of all activities related to this Agreement by officials of the RIDE, its designee, and, where appropriate, the federal government.

Article 6

Partnership. It is understood and agreed that nothing herein is intended or should be construed in any manner as creating or establishing the legal relation of partnership between the parties hereto, or as constituting the employees, agents, or representatives of the Contractor included in this Agreement as employees, agents, or representatives of RIDE.

Article 7

Severability. If any provision of this Agreement is held invalid, the remainder of this Agreement shall not be affected thereby if such remainder would then continue to conform to the terms and requirements of applicable law.

Article 8

Copyright. Reports or other documents produced in whole or in part under this Agreement shall either bear no copyright notice or indicate that the Contractor and RIDE are Joint Owners of the copyright.

Article 9

Publicity. The Contractor will give due credit to RIDE and the appropriate state and/or federal agencies. RIDE will be credited on all media announcements, billboards, and educational materials produced or developed under the scope of this Agreement. RIDE will give due credit to the Contractor on all media announcements, billboards, and educational materials produced or developed under the scope of this Agreement.

Article 10

Interest of the Contractor. The Contractor covenants that it presently has no pecuniary interest and shall not acquire any such interest, direct or indirect, which would conflict in any manner or degree with the performance of services required to be performed under this Agreement. The Contractor further covenants that in the performance of this Agreement no person having any such interest shall be employed.

Article 11

Civil Rights. The Contractor agrees to abide by applicable provisions of Title VI of the Civil Rights Act of 1964, as amended; Section 504 of the Rehabilitation Act of 1973; the Age Discrimination Act of 1975 (P.L. 94-135, Title III); the Americans with Disability Act of 1990 (P.L. 101-336); and all other applicable federal and state laws relating to equal employment opportunities. The Contractor asserts that no person shall, on the grounds of race, color, national origin, religion, sex, age, political belief, sexual preference, or handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activities undertaken in behalf of this Agreement. In addition, the Contractor agrees to establish a procedure for complaint from any person who believes that such discrimination is being practiced in any activity relating to this Agreement.

Article 12

Drug Free Workplace Policy. The Contractor agrees to maintain and enforce its Drug Free Workplace Policy. The Contractor acknowledges that a violation of the Drug Free Workplace Policy may, at RIDE's option, result in termination of this Agreement.

Article 13

Environmental Tobacco Smoke. The Contractor agrees to comply with Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), which requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by the entity and used routinely or regularly for the provision of RIDE day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by federal grant, contract, loan or loan guarantee. The law also applies to children's services that are constructed, operated or maintained with such funds. The law does not apply to children's services provided in private residences; portions of facilities used for inpatient drug or alcohol treatment; service providers whose sole source of applicable Federal funds is Medicare or Medicaid; or facilities where WIC coupons are redeemed.

Article 14

Lobbying. All Contractors must comply with all federal laws restricting and/or limiting lobbying activities of recipients of federal funds including but not limited to 31 U.S.C. Section 1352 and Section 503 of the Departments of Labor, RIDE and Human Services, and Education, and Related Agencies Appropriations Act (Public Law 104-209).

Article 15

Licensure/Certification. The Contractor shall have in place any and all licenses/permits necessary to provide the services prior to the start date of this Agreement and for the duration of the contract period. Further, all personnel delivering RIDE services shall be licensed/certified and/or registered as required by law.

Article 16

Incorporation by Reference and Interpretation. This Agreement consists of the following contract documents: (a) this Agreement; (b) the Proposal and (c) the RFP and Purchase Order, all of which may be collectively referred to throughout this Agreement as the "Contract Documents." In the event any conflict shall arise among the provisions of the foregoing documents, said conflict shall be resolved by giving priority to the documents in the order set forth above.

Article 17

Laws of Rhode Island and Venue. It is understood and agreed that this Agreement shall be governed by the laws of the State of Rhode Island, both as to interpretation and performance. Venue for any and all legal actions arising hereunder shall lie in the Superior Court in and for the County of Providence, State of Rhode Island.

Article 18

Entire Agreement. This Agreement contains the sole and entire agreement between the parties, and supersedes and renders null and void any and all other agreements between them. The parties acknowledge and agree that neither of them has made any representation with respect to the subject matter of this Agreement or any representations inducing the execution and delivery hereof except such representations as are specifically set forth herein, and each of the parties acknowledges that it has relied on its own judgment in entering into the Agreement. The parties further acknowledge that any statements or representations that may have heretofore been made by either of them to the other are void and of no effect and that neither of them has relied thereon in connection with this Agreement or its dealings with the other. This Agreement may be amended or extended by mutual written consent.

ATTACHMENT D - Vendor Pricing Template

ATTACHMENT D - VENDOR PRICING TEMPLATE - Program Year 2011/12

This is a **preliminary list** including current program participants.

Vendors should note that the consortium 470 includes **ALL** schools and libraries. The list will be finalized over the next several months.

It is helpful if the vendor indicates if the prices for any of these schools can be generalized for all locations. If there are exceptions, please note.

Sites and services will be allocated based on final selected service offers per vendor bids.

NR = No Bid from specific vendor

N/A= Vendor response is not applicable to this site for any of several reasons explained more completely in the narrative.

Blanked schools / sites / prices represent site locations where services cannot/will not be provided in this current program year

This list represents a specific request for services to be finalized in a contract with each vendor.

District lines or head ends (except CLAN) are to be connected to the statewide network core.

Unusual costs associated with district equipment changes or equipment needed at the host ISP should be included in the pricing.

Vendors must quote and size their access to the cloud head end(s) and RINET/CLAN where applicable.

Vendors should complete BOTH the pricing table and the site specific portion of this attachment.

Vendors may insert rows into the pricing table where appropriate.
