About the Advanced Coursework Network

Rhode Island students work diligently to meet high school graduation requirements and prepare themselves for college and career success. For some students, that work will include advanced courses for college credit or specialized training to receive an industry certification. These enriching experiences help students get a head start on post-secondary success, master the skills required of a lifelong learner, and be prepared for jobs in sectors critical to Rhode Island's future prosperity.

The Rhode Island Department of Education (RIDE) has developed the Advanced Coursework Network to ensure that all students have access to high quality coursework that will allow them to pursue their interests and prepare them for success after high school. The Advanced Coursework Network is a statewide course access system that gives students choices beyond what is available at their high school. Through state funding, schools can seamlessly expand course opportunities for their students at no additional cost to students, families or the district. The options available to schools and students will be offered through high quality, state-approved course providers, with possibilities ranging from local industry training programs to advanced courses at Rhode Island's colleges and universities.

The Network engages students and families to give Rhode Island high school students access to courses that enable them to envision, pursue and complete their individualized graduation pathway. Students remain enrolled in their current public school, but can supplement their existing curricular options to improve their college and career preparedness. The course offerings include advanced science and mathematics courses, as well as Advanced Placement (AP[®]), world languages, career-focused and dual/concurrent enrollment courses.

Important Information

Costs: The RI Department of Education (RIDE) will cover the cost of course tuition and fees including textbook and materials for courses listed in this catalog for all students enrolling from public school Network Members. RIDE is unable to cover costs associated with transportation to courses. Students and families are responsible for these potential transportation costs. Please note that for Advanced Placement courses, the provider must adhere to the policies they have in place for students enrolled from their existing program. This means in some cases, a student may be responsible for the \$92 to take the test. RIDE has funds available to supplement costs for students of families with qualified incomes. For more information, visit www.ride.ri.gov/advancedcoursework.

Registration and Enrollment: Students should work with their school guidance counselors and their families to identify appropriate coursework. Once coursework is identified, students, families or guidance counselors may complete the registration form on www.ride.ri.gov/advancedcoursework. Courses on the registration form will be organized alphabetically by course name. Please note the course, scheduling summary and provider of the courses you are interested in to be able to identify them on the form.

Courses will be filled "first-come-first-serve" with a wait list being created in the case seats open in the course before the start date. Specific start dates of each course will be shared by the Course Provider once a student has confirmed their registration in the course. **Students are not fully enrolled in the course until they and their School Contact receive a confirmation email from the course provider.**

**For questions or comments about the Advanced Coursework Network, email
advancedcoursework@ride.ri.gov**

COURSE OPTIONS

The following pages share the AY16-17 Fall and Yearlong course offerings. Courses are categorized into:

- Dual / Concurrent Enrollment: These courses will enable students to earn college from an accredited post-secondary institution while earning high school credit.
- Advanced Placement: These courses are identified by the College Board organization and are designed to be of college rigor. Students may choose to take a comprehensive course at the end of these courses to obtain a college credit equivalent that is accepted by many 2 and 4 year institutions of higher education.
- Career Preparation: These courses have been identified as leading to a workplace credential or oriented towards increasing student awareness of potential career opportunities.
- Advanced Secondary Credit: These courses may be electives and address various disciplines.

Courses may be offered in face to face formats or virtually. Look for this symbol to quickly identify virtual courses.

DUAL / CONCURRENT ENROLLMENT

SCIENCE, ENGINEERING & TECHNOLOGY

AP Computer Science Principles

Category: Dual / Concurrent Credit - Engineering & Technology

Description: AP Computer Science Principles course is designed to be equivalent to a first-semester introductory college computing course. This curriculum framework provides a detailed description of the course content. The key sections of this framework are described in the following text (The AP Computer Science Principles Curriculum Framework). AP CSP offers a multidisciplinary approach to teaching the underlying principles of computation. The course will introduce students to the creative aspects of programming, abstractions, algorithms, large data sets, the Internet, cyber security concerns, and computing impacts. AP Computer Science Principles will give students the opportunity to use technology to address real-world problems and build relevant solutions. Together, these aspects of the course make up a rigorous and rich curriculum that aims to broaden participation in computer science. The University of Rhode Island's Department of Computer Science and Statistics has developed a rigorous schedule of activities that align with the College Board's curriculum framework for AP CSP based on their freshmen introduction to computer science. The units have been tested across a 5 school districts in Rhode Island. FabNewport will use the URI curriculum developed by Victor Fay-Wolfe. Students receive 8 credits from the University of Rhode Island for successfully completing the course.

Credential Opportunity:	Concurrent Credit
Prerequisites:	None
Scheduling Summary:	F2F - School Day – One Day a Week OR Two days a week
Semester:	Yearlong
Middle School Eligible:	No
Day of Week / Time:	Wednesday: 10-2 (meet once a week); Tuesday and Thursday: 10-12 (meets twice a week)
Location:	1 York Street, Newport RI
Provider-Suggested Sched Code:	10011

Computer and Networking Fundamentals

Category: Dual / Concurrent Credit - Engineering & Technology

Description: 2 Class Hours 2 Lab Hours 3 Quarter Credit Hours | NE 115 This course provides a technical overview of computers and computer networking used in business. Hands on exercises are provided to give students experience with basic computer and network activities. The content serves as a technical foundation for later courses in the Network Engineering and Software Engineering programs.

Credential Opportunity: Dual Credit

Prerequisites: None

Scheduling Summary: F2F - Afterschool 2xWeek

Semester: Fall Quarter (October-December)

Middle School Eligible: No

Day of Week / Time: Mon/Wed or Tues/Thurs /3:05pm - 4:45pm

Location: One New England Tech Blvd., East Greenwich, RI 02818

Provider-Suggested Sched Code: 10254

*Provider: New England Institute
of Technology*

Digital Photography

Category: Dual / Concurrent Credit - Engineering & Technology

Description: 2 Class Hours 4 Lab Hours 4 Quarter Credit Hours | GMW 100 This course introduces GMW students to the technology and techniques of digital image creation using SLR cameras. Starting with “what is digital” theory and principles, this course will train students in basic digital still camera photography, composition, and storage technique. It will then continue with each student shooting and editing their own photo essay, to be used as a first portfolio piece.

Credential Opportunity: Dual Credit

Prerequisites: None

Scheduling Summary: F2F - Afterschool 2xWeek

Semester: Fall Quarter (October-December)

Middle School Eligible: No

Day of Week / Time: Mon/Wed or Tues/Thurs /3:05pm - 5:35pm

Location: One New England Tech Blvd., East Greenwich, RI 02818

Provider-Suggested Sched Code: 05167

*Provider: New England Institute
of Technology*

Intro to Ship Handling

Category: Dual / Concurrent Credit - Engineering & Technology

Description: The student of the science and art of controlling and maneuvering single and twin screw propelled power vessels and tug and barge combinations in light and loaded conditions using the Institute's full bridge simulators. Propulsion and rudder systems and vessel turning and stopping are studied. Anchoring and anchor handling is addressed. The special considerations required for approaching other vessels, ship handling in rivers, maneuvering in shallow and narrow water ways, interaction of bank and passing vessels and berthing and un-berthing are studied. Dry-docking, heavy weather operations including lifeboat/life raft operations, wake reduction, operating in ice, and towing operations are studied. Emergency procedures including grounding, collision, fire, abandon ship procedures, emergency steering, personnel rescue, man overboard recovery and emergency towing are addressed.

Credential Opportunity: Dual Credit
Prerequisites: Nautical Science
Scheduling Summary: F2F - Afterschool 1xWeek
Semester: Fall 2016
Middle School Eligible: No
Day of Week / Time: Mon/Wed or Tues/Thurs /TBA
Location: 32 Washington Street, Fairhaven, MA
Provider-Suggested Sched Code: 20054

*Provider: Northeast Maritime
Academy*

Introduction to Architecture and Building Technology

Category: Dual / Concurrent Credit - Engineering & Technology

Description: 1 Class Hour 1 Quarter Credit Hour |ABT 111 This is a survey course which introduces students to Building Science. Primary topics will include the many professional disciplines and career paths available to graduates. Additional topics will also include the skills and attitudes necessary to the disciplines, professional ethics, relationships with other trades and professions, construction documentation, and LEED.

Credential Opportunity: Dual Credit
Prerequisites: None
Scheduling Summary: F2F - Afterschool 1xWeek
Semester: Fall Quarter (October-December)
Middle School Eligible: No
Day of Week / Time: Mon or Wed /3:05pm - 4:05pm
Location: One New England Tech Blvd., East Greenwich, RI 02818
Provider-Suggested Sched Code: 17001

*Provider: New England Institute
of Technology*

Introduction to Civil Engineering Technology

Category: Dual / Concurrent Credit - Engineering & Technology

Description: 3 Class Hours 3 Quarter Credit Hours | CET 110 Introduction to the field of civil engineering with an overview of transportation infrastructure, municipal water and wastewater systems, surveying and environmental considerations. Other concepts to be introduced include careers in civil engineering, qualifications for civil engineers and technicians, and professional organizations within the industry.

Credential Opportunity: Dual Credit

Prerequisites: None

Scheduling Summary: F2F - Afterschool 2xWeek

Semester: Fall Quarter (October-December)

Middle School Eligible: No

Day of Week / Time: Mon/Wed or Tues/Thurs /3:05pm - 4:15pm

Location: One New England Tech Blvd., East Greenwich, RI 02818

Provider-Suggested Sched Code: 21011

*Provider: New England Institute
of Technology*

Introduction to Engineering Technology

Category: Dual / Concurrent Credit - Engineering & Technology

Description: 2 Class Hours 2 Quarter Credit Hours | EST 112 This course is an introduction to engineering technology that gives an overview of the engineering profession with sample applications of typical duties, tasks, and environment of the engineer and technologist today. The opportunities for and duties of various related engineering and technology specialists are illustrated. The future of engineering technology is also discussed.

Credential Opportunity: Dual Credit

Prerequisites: None

Scheduling Summary: F2F - Afterschool 2xWeek

Semester: Fall Quarter (October-December)

Middle School Eligible: No

Day of Week / Time: Mon/Wed or Tues/Thurs /3:05pm - 4:45pm

Location: One New England Tech Blvd., East Greenwich, RI 02818

Provider-Suggested Sched Code: 21999

*Provider: New England Institute
of Technology*

Introduction to Game Development

Category: Dual / Concurrent Credit - Engineering & Technology

Description: 2 Class Hours 2 Lab Hours 3 Quarter Credit Hours | GDS 114 This course is an overview of the game development industry. Students will learn what is involved in developing a professional game from start to finish. Topics include the game development life cycle, developing a budget and game specification documents. Students will also be exposed to important physics, math and artificial intelligence concepts relevant to game development.

Credential Opportunity: Dual Credit

Prerequisites: None

Scheduling Summary: F2F - Afterschool 2xWeek

Semester: Fall Quarter (October-December)

Middle School Eligible: No

Day of Week / Time: Mon/Wed or Tues/Thurs /3:05pm - 4:45pm

Society, Ethics & Technology

Category: Dual / Concurrent Credit - Engineering & Technology

Description: This course provides a study of materials, processes, and equipment used in industry today. Topics include ferrous and nonferrous metals, material testing, heat treatment, founding process output capabilities of machines, welding, and inspection. Field trips and industrial films augment the text material. (3 credits)

Credential Opportunity: Dual Credit

Prerequisites: None

Scheduling Summary: Virtual - Asynchronous

Semester: Fall 2016

Nautical Science

Category: Dual / Concurrent Credit - Engineering & Technology

Description: An introduction to Nautical Science this course covers basic skills that would put the student at "Able Seafarer: level of knowledge in the Merchant Marine. The course includes material appropriate to the studies of an Able Seafarer, as well as skills to efficiently organization the work of others. Topics covered include: rigging, mechanical advantage, deck equipment, hardware, maintenance, line handling and safety procedures, laws for the prevention of collisions at sea, identification of navigational aids, Introduction to maritime pollution prevention laws and practice, marlinspike seamanship and where possible the theory and practice of cargo and weight handling. All topics will be covered both theoretically and practically.

Credential Opportunity: Dual Credit
Prerequisites: None
Scheduling Summary: F2F - Afterschool 1xWeek
Semester: Fall 2016
Middle School Eligible: No
Day of Week / Time: Mon/Wed or Tues/Thurs /TBA
Location: 32 Washington Street, Fairhaven, MA
Provider-Suggested Sched Code: 20054

*Provider: Northeast Maritime
Academy*

Programming Essentials Using C++

Category: Dual / Concurrent Credit - Engineering & Technology

Description: 2 Class Hours 4 Lab Hours 4 Quarter Credit Hours | SE 114 C++ will be used as the vehicle to introduce flowcharting, control structures, calculations, interactive programming techniques, functions, and arrays. Students will learn to write high quality programs that implement techniques and theory necessary for business applications. Laboratory projects will grow in complexity as students gain hands-on experience. Both personal and business applications will be provided.

Credential Opportunity: Dual Credit
Prerequisites: None
Scheduling Summary: F2F - Afterschool 2xWeek
Semester: Fall Quarter (October-December)
Middle School Eligible: No
Day of Week / Time: Mon/Wed or Tues/Thurs /3:05pm - 5:35pm

Foundations of Education

Category: Dual / Concurrent Credit - History & Social Sciences

Description: This course enables students to explore the profession and decide whether they want to become teachers. The curriculum examines historical, philosophical, and social issues of teaching and learning through selected readings, class discussions, and student research. This course includes a field experience in an urban public school. Students are required to write and present research on a current issue in education and to compile a "culture of the school" report based on their field experiences. (3 credits)

Credential Opportunity: Dual Credit

Intro to the Sports, Entertainment & Event Management Industry

Category: Dual / Concurrent Credit - History & Social Sciences

Description: SEE1001 Introduction to the Sports, Entertainment and Event Management Industry, is the course taken during a new student's first term of enrollment if they are entering JWU as a SEEM major. This course introduces students to the sports, entertainment and event management field. Emphasis is on the historical development, organizational structure, use of technology and career opportunities that exist within the industry. Operational issues related to the management of events and facilities such as arenas, convention centers and stadiums are also discussed.

Credential Opportunity: Dual Credit

Prerequisites: Must be in at least 10th grade and have a 3.0 cumulative GPA

Scheduling Summary: F2F - Afterschool 1xWeek

Semester: Fall 2016

Middle School Eligible: No

Day of Week / Time: Wed /6pm - 8:30pm

Location: Harborside Academic Center on the Johnson & Wales University Harborside Campus

Provider-Suggested Sched Code: 12163

Nonprofit Management

Category: Dual / Concurrent Credit - History & Social Sciences

Description: This course provides students with an overview of the role of the nonprofit sector in the United States, as well as comprehensive exposure to the various elements of managing a non-profit organization. Governance, personnel, finance, planning, and service delivery will be examined and best practices located. Students emerge from the course better able to face the challenges of working in and managing a nonprofit organization. (3 credits)

Credential Opportunity: Dual Credit

Prerequisites: None

Scheduling Summary: F2F - Afterschool 1xWeek

Semester: Fall 2016

Middle School Eligible: No

Day of Week / Time: Wednesday /6pm - 9pm

Provider-Suggested Sched Code: 16001

ADVANCED PLACEMENT[©]

VISUAL & PERFORMING ARTS

AP Art History

Category: Advanced Placement - Arts

Description: The AP Art History course is equivalent to a two-semester introductory college course that explores the nature of art, art-making, and responses to art. By investigating specific course content of 250 works of art characterized by diverse artistic traditions from prehistory to the present, the course fosters in-depth, holistic understanding of the history of art from a global perspective. Students become active participants in the global art world, engaging with its forms and content. They experience research, discuss, read and write about art, artists, art-making, responses to and interpretations of art.

Credential Opportunity: College Credit (with AP Test)

Prerequisites: AP Placement Criteria

Scheduling Summary: Virtual - Synchronous, Evenings, 2xWeek

Semester: Yearlong

Middle School Eligible: Yes

Day of Week / Time: Mon/Wed or Tues/Thurs / 7pm - 8pm

Location: Online with F2F Sessions in Warwick by Appt

Provider-Suggested Sched Code: 05153

CAREER PREPARATION

SCIENCE, ENGINEERING & TECHNOLOGY

3D Modeling and Digital Manufacturing

Category: Career Preparation - Engineering & Technology

Description: 3D Modeling and Digital Manufacturing is an introductory career readiness course, preparing students to work in advanced manufacturing and rapid prototyping. The course is process oriented; student work focuses on designing and completing projects with personal relevance and community impact. It is an integrated curriculum combing a variety of subjects (see below) and driven by student inquiry and experiential learning.

The course combines soft skill development (problem solving, curiosity, initiative, communication, collaboration, communication), technical skills, design and manufacturing techniques, and purpose-driven project-based pedagogy to build a career readiness foundation for students.

Credential Opportunity: Autodesk Certified User

Prerequisites: None

Scheduling Summary: F2F - School Day – One Day a Week OR Two days a week

Semester: Yearlong

Middle School Eligible: No

Day of Week / Time: Friday: 10-2 (meet once a week); Tuesday and Thursday: 12:30-2:30 (meets twice a week)

Location: 1 York Street, Newport RI

Provider-Suggested Sched Code: 21010

Music Stations

Category: Career Preparation – Engineering & Technology

Description: Students complete the course with an understanding of the software and hardware used in modern music production.

Credential Opportunity: N/A

Prerequisites: None

Scheduling Summary: F2F - Afterschool 2xWeek

Semester: Fall 2016

Middle School Eligible: No

Day of Week / Time: Mon/Wed or Tues/Thurs /4pm - 6pm

Location: 640 Broad St., Providence RI

Provider-Suggested Sched Code: 05123

Intro to Pharmacy

Category: Career Preparation - Science

Description: In today's world, the role of a pharmacist is rapidly changing. In addition to preparing and dispensing medicine, pharmacists increasingly take the lead on problem-solving health-epidemics, and on direct patient care. If you are interested in a future career as a pharmacist (or in biomedical science, immunology research, etc.), exposure to the factors covered in this course will more than prepare you for your next steps. You will conduct lab experiments, predict the effects of drug interactions on a robotic "dummy" and explore other fascinating topics with University of Rhode Island Professors, students and practitioners. Learn the basics in the state-of-the-art URI School of Pharmacy and gardens, visit important local companies like CVS and Amgen, and make important connections for your future career.

Credential Opportunity:	N/A
Prerequisites:	None
Scheduling Summary:	F2F - Afterschool 1xWeek
Semester:	Yearlong
Middle School Eligible:	No
Day of Week / Time:	Tuesday /3:30pm - 5:30pm

Applied Career Investigations I

Category: Career Preparation - Additional Opportunities

Description: Think you want to be a doctor, game designer or community planner? Find out what it's like and what it's going to take to get there in CI I & II. Work with a small group of peers, and your Industry Mentor, to create unique original work products that separate you from the pack. Individualized career boosting support, and investigation of all RI has to offer in workforce development, and your field of choice, followed by live worksite experiences, enable unusually deep exploration. By the end of the year, you will know for sure if this is the career for you, and exactly how to pursue it.

Credential Opportunity:	N/A
Prerequisites:	None
Scheduling Summary:	F2F - Afterschool 1xWeek
Semester:	Fall 2016
Middle School Eligible:	No
Day of Week / Time:	Monday /2:30pm - 4:30pm
Location:	Woonsocket
Provider-Suggested Sched Code:	22997

Provider: RiverzEdge

ADVANCED SECONDARY COURSES

SCIENCE, ENGINEERING & TECHNOLOGY

Brandaris Maritime: Rocketry & Physics of Flight

Category: Advanced Secondary Credit - Engineering & Technology

Description: This program challenges students to explore the four basic principles of flight: Thrust, Drag, Mass and Lift. This is done through the design and build of various flying devices from paper airplanes and "walk along" gliders to pneumatically launched rockets. The opportunity to practice the skills associated with PASA's Graduate Profile are infused in this program offering. The "Rocketry- Physics of Flight" program utilizes lessons from the NASA Educators Guide and Model Rocketry: A STEM Based Curriculum.

Credential Opportunity: N/A
Prerequisites: None
Scheduling Summary: F2F - Afterschool 2xWeek
Semester: Fall 2016
Middle School Eligible: No
Day of Week / Time: Mon/Wed 3:30pm - 5pm
Location: Juanita Sanchez Education Complex.
Provider-Suggested Sched Code: 21055

Provider: Providence After School Alliance

Center for Dynamic Learning: Intro to Mechanical Fabrication

Category: Advanced Secondary Credit - Engineering & Technology

Description: This course, designed and taught by quality STEAMM Educators at the Center for Dynamic Learning, imparts students with an introduction of mechanical technology. Successful completion of the course will provide the student with the benefits, limitations, and applications of different machine tools and environmentally friendly engineering materials for product manufacturing and fabrication. Students will study wood, plastic, and metal working.

Credential Opportunity: N/A
Prerequisites: None
Scheduling Summary: F2F - Afterschool 2xWeek
Semester: Fall 2016
Middle School Eligible: No
Day of Week / Time: Tues/Thurs 3:30pm - 5pm
Location: 1 Louisa Street in Providence.
Provider-Suggested Sched Code: 21106

Provider: Providence After School Alliance

Chrysalis App Design

Category: Advanced Secondary Credit - Engineering & Technology

Description: Danielle Bessler Foundation: Chrysalis: is a program designed by the Danielle Bessler Foundation for women of high-school age to design and build websites and mobile apps in a supportive atmosphere that encourages creativity & economic self-sufficiency. Students learn principles of coding and computology using state of the art technology, tools & app design techniques.

Credential Opportunity: N/A
Prerequisites: None
Scheduling Summary: F2F - Afterschool 2xWeek
Semester: Fall 2016
Middle School Eligible: No
Day of Week / Time: Tues/Thurs 3:30pm - 5pm
Location: Central High School
Provider-Suggested Sched Code: 10004

Provider: Providence After School Alliance

Compuverse Computer Science

Category: Advanced Secondary Credit - Engineering & Technology

Description: Compuverse, an Introduction to Computer Science, has been developed to address the significant and numerous challenges in the United States' K-12 Computer Science education as identified by the ACM/CST A. Compuverse merges comprehensive CS content with a leading edge delivery mechanism to create a transformational CS learning experience. Using their proven R&D process, the EduNova team leveraged expertise spanning instructional design, game-based interactive learning, curricular design, content contextualization and software engineering to create Compuverse. To address the nation's acute CS education needs, Compuverse includes four design innovations that encompass both content design and content delivery to distinctly distinguish it from existing CS solutions.

Credential Opportunity:	N/A
Prerequisites:	None
Scheduling Summary:	Virtual - Synchronous, Evenings, 2xWeek
Semester:	Yearlong
Middle School Eligible:	Yes
Day of Week / Time:	Mon/Wed or Tues/Thurs 6pm - 7pm
Location:	Online with F2F Sessions in Warwick by Appt
Provider-Suggested Sched Code:	10003

DownCity Designers

Category: Advanced Secondary Credit - Engineering & Technology

Description: Students will work with DownCity Design educators to design a new structure to improve a school or public space in Providence, then they'll learn to use power tools to build their vision. This is a great class for anyone interested in architecture, design, or construction. No construction skills are necessary.

Credential Opportunity:	N/A
Prerequisites:	None
Scheduling Summary:	F2F - Afterschool 2xWeek
Semester:	Fall 2016
Middle School Eligible:	No
Day of Week / Time:	Mon/Wed 3:30pm - 5pm
Location:	425 West Fountain St. in Providence.
Provider-Suggested Sched Code:	17997

Intro to Java

Category: Advanced Secondary Credit - Engineering & Technology

Description: In Introduction to Java Programming 10th Edition ©2015, Daniel Liang teaches concepts of problemsolving and object-oriented programming using a fundamentals-first approach. Beginning programmers learn critical problem-solving techniques then move on to grasp the key concepts of object-oriented, GUI programming, advanced GUI, and web programming using Java. Liang approaches Java GUI programming using JavaFX, not only because JavaFX is much simpler for new Java programmers to learn and use, but because it has replaced Swing as the new GUI tool for developing cross-platform-rich Internet applications on desktop computers, on hand-held devices, and on the web. Additionally, JavaFX provides a better teaching tool for teachers to demonstrate object-oriented programming.

Credential Opportunity: N/A

Prerequisites: None

Scheduling Summary: Virtual - Synchronous, Evenings, 2xWeek

Semester: Yearlong

Middle School Eligible: Yes

Day of Week / Time: Mon/Wed or Tues/Thurs 7pm - 8pm

Location: Online with F2F Sessions in Warwick by Appt

Provider-Suggested Sched Code: 10155

Principles of Design (ACE FabLab)

Category: Advanced Secondary Credit - Engineering & Technology

Description: In collaboration with DownCity Design and Brandaris Maritime, students will explore principles of design, mechanics of materials, applied physics, use of tools, personal protective equipment, computer-aided design techniques, rapid prototyping, and the emerging advanced and additive manufacturing and construction industries. Students will design and build projects that fulfill an identified community need.

Credential Opportunity: N/A

Prerequisites: None

Scheduling Summary: F2F - Afterschool 2xWeek

Semester: Yearlong

Middle School Eligible: No

Day of Week / Time: Tues/Thurs 3:30pm - 5pm

Location: Academy for Career Exploration

Provider-Suggested Sched Code: 21053

PPL/ACE Computer Science Teen Squad

Category: Advanced Secondary Credit - Engineering & Technology

Description: In collaboration with the Providence Public Library (PPL), you will apply real-world computer science by creating a personalized “Then and Now” Web profile on a Rhode Island - related topic of interest that you choose. You will get access to PPL’s non-circulating Special Collections materials to conduct your research. Through your project, you will get an introduction to the concepts of digital humanities, public history and the collection/creation of new historical resources. The project will culminate with a student created digital exhibit on the PPL webpage.

Credential Opportunity: N/A
Prerequisites: None
Scheduling Summary: F2F - Afterschool 2xWeek
Semester: Fall 2016
Middle School Eligible: No
Day of Week / Time: Mon/Wed 3:30pm - 5pm
Location: Academy for Career Exploration
Provider-Suggested Sched Code: 10002

Community Boating Center: Sailing Through Science

Category: Advanced Secondary Credit - Science

Description: Combining on the water sailing with ten "Reach Initiative" STEM curriculum modules, students will learn not only how to sail, but how a sailboat works! In this program students will sail on 22 foot sailboats and spend classroom time learning about the factors which make sailing possible including wind, buoyancy, sail area and perimeter, and simple machines. They will also study the Rhode Island's waterfront environment by testing water quality, and learning about marine debris. More advanced concepts of land and sea breezes, wind power, and underwater exploration round out the course.

Credential Opportunity: N/A
Prerequisites: None
Scheduling Summary: F2F - Afterschool 2xWeek
Semester: Fall 2016
Middle School Eligible: No
Day of Week / Time: Mon/Fri 3:30pm - 5pm
Location: at Juanita Sanchez Education Complex and will transition to the Boating Center located at 109 India Street in Providence
Provider-Suggested Sched Code: 03162

Global Warming - Climate Change & the New Weather

Category: Advanced Secondary Credit - Science

Description: Learn how global warming is changing the earth's climatic conditions and how the changing climate is creating more extreme weather events here and everywhere else. In studying global warming, you will gain comprehensive knowledge and understanding of carbon cycles, water cycles and the macro forces that shape regional and global weather. Hands-on experiments, habitat observation, "science behind the movie" viewing, interviews with local experts/multiple POVs, independent investigations and production of learnings and work -- as video, physical or virtual models, Power-Points, or your own invention -- will help you better understand one of the critical issues of our time!

Credential Opportunity: N/A
Prerequisites: None
Scheduling Summary: F2F - Afterschool 1xWeek
Semester: Fall 2016
Middle School Eligible: No
Day of Week / Time: Mon/Wed 4pm - 6pm
Location: Riverzedge Green Design Lab, Woonsocket
Provider-Suggested Sched Code: 03007

Topics in Public Health/Advocacy

Category: Advanced Secondary Credit - Science

Description: Public Health and Advocacy offers everything you wanted to know about health and much more! Through the shared expertise and experiences of practicing pediatricians, EMTs and clinicians at the forefront of community medicine, you will engage in eye-opening sessions about the most important public health issues of our times. Sessions explore Nutrition, Physical Fitness, Sexuality, Mental Health, Health Careers and others, with ample opportunity to explore how they relate your lives, neighborhoods, cities and regions. Field exploration and independent research more prepare you to become a leading voice now, and health practitioner in your future career. Make a difference, improve a life!

Credential Opportunity: N/A

Prerequisites: None

Scheduling Summary: F2F - Afterschool 1xWeek

Semester: Yearlong

Middle School Eligible: No

Day of Week / Time: Wednesday 3:30pm - 5:30pm

Location: Brown University, School of Public Health

Provider-Suggested Sched Code: 08051

Prevention and Care of Athletics

Category: Advanced Secondary Credit - Science

Description: Students acquire a basic understanding of sports medicine. Topics include preventative techniques, protective strapping, basic anatomy, injury recognition and rehabilitation of athletic injuries.

Credential Opportunity: N/A
Prerequisites: None
Scheduling Summary: F2F - Weekend 1xWeek
Semester: Fall 2016
Middle School Eligible: No
Day of Week / Time: Saturday 8:00am - Noon
Location: Times2 Academy, Providence
Provider-Suggested Sched Code: 08017

Provider: Times2Academy

ENGLISH LANGUAGE & COMPOSITION

Storytelling, Leadership and Change

Category: Advanced Secondary Credit - English Language & Composition

Description: Youth in Action: Storytelling, Leadership and Change: Youth dive into workshops twice a week during the school year exploring skills such as public speaking, cooperation, empathy, facilitation, and storytelling. Above all, youth learn how to build relationships, both with adults and their peers

Credential Opportunity: N/A
Prerequisites: None
Scheduling Summary: F2F - Afterschool 2xWeek
Semester: Fall 2016
Middle School Eligible: No
Day of Week / Time: Wednesday & Thursday 4:00 pm -6:00 pm
Location: Youth In Action, Providence
Provider-Suggested Sched Code: 22101

Provider: Providence After School Alliance

Young Voices Leadership Transformation Academy

Category: Advanced Secondary Credit - English Language & Composition

Description: Instructors will meet with the students twice a week, providing advanced leadership training in the development of oral and written communication skills, how to analyze policy issues related to high school education, and the art of dialogue and debate. Each student will also receive additional training in critical thinking and the development of the skills necessary to participate in meetings with the school principals, district and city officials and state representatives.

Credential Opportunity: N/A
Prerequisites: None
Scheduling Summary: F2F - Afterschool 2xWeek
Semester: Fall 2016
Middle School Eligible: No
Day of Week / Time: Mon/Thurs 3:30pm - 5:30pm
Location: 300 Weybosset St, Providence
Provider-Suggested Sched Code: 22101

WORLD LANGUAGES

Mandarin Chinese

Category: Advanced Secondary Credit - World Languages & Cultures

Description: This course will utilize Chinese Link. Chinese Link provides and enjoyable, practical, learner-entered language and cultural experience for beginning students. The communicative focus develops competency in listening, speaking, reading and writing the Chinese language. Chinese Link integrates the "5 Cs" principal- Communication, Cultures, Comparisons, Connections and Communities - throughout the program in order to provide a new approach for teaching and learning the Chinese language in the 21" Century.

Credential Opportunity: N/A
