### **1.8.5 Professional Learning Units**

- A. Professional Learning Units (PLUs) are accrued for the purpose of demonstrating ongoing professional learning. The accumulation of these units is a requirement for renewing educator certificates. These units represent ongoing learning and are earned as a result of professional learning activities that are designed to

increase educator effectiveness. Ongoing learning is an important and necessary responsibility of educators as they maintain the knowledge and skills needed to educate students.

- B. Educators are responsible for the completion of all PLUs , as PLUs are a condition of the renewal of educator certificates. LEAs may, in accordance with LEA discretion and/or local agreements, make available some or all of these PLUs for its employed educators.
- C. Each LEA that employs educators shall develop, in collaboration with the employed educators, an LEA professional learning plan that includes the provisions outlined below.
  1. Identification of needs and interests of all educators based on analysis of student data, educator evaluation information, surveys and needs assessments.
  2. Alignment to educator needs as well as district and school needs through review of district strategic plans, school improvement plans, surveys and other information.
  3. Examples of allowable activities, consistent with these regulations.
  4. Mechanisms for the approval of educator professional learning consistent with these regulations and the local resolution of disputes.
  5. Structures and plans to ensure opportunities for professional learning activities that take place within the school context over time and are ongoing, including but not limited to, data analysis meetings, student work review teams, curriculum implementation teams, improvement cycle activities, induction activities, mentoring activities, and structured professional learning communities rather than only reliance on one-time activities.
  6. Alignment and differentiation of professional learning to ensure opportunities that are relevant to teachers' certified areas, administrators and support professionals.
- D. All educator PLUs for employees of a LEA shall be approved by the superintendent of the LEA or his/her designee, and once the LEA professional learning plan is operative, consistent with the LEA professional learning plan. In any instance where these regulations and the LEA professional learning plan are in conflict, these regulations shall take precedence. PLUs for superintendents shall be approved by the chair of the school committee. The Commissioner of Education shall have the authority to approve specific PLU offerings for all Rhode Island certified educators.

E. Activities for Professional Learning Units

1. Site-Based Professional Learning activities such as: induction activities, mentoring activities, structured Professional Learning Communities, data analysis meetings, local workshops, lesson study, student work review sessions, curriculum implementation teams and other site-based activities designed to improve teaching and learning.
2. Structured coaching that involves trained coaches working with colleagues on focused objectives through observation and feedback cycles. Coaching may take the form of induction coaching for beginning teachers or peer coaching and instructional coaching.
3. Proficiency-based Learning and Micro-credentials activities that require the educator to demonstrate proficiency in a new skill by submitting evidence of mastery. Micro-credentials often require educators to submit evidence to third party providers for review.
4. University coursework at accredited institutions of higher education.
5. National Board Certification is a recognized form of professional learning that may be used to accumulate units. Educators may receive units for completing individual components even if the certification is not achieved.
6. External Conferences or Workshops led by external organizations encompass a wide range of learning opportunities. Short-term or stand-alone workshops can be counted for limited units.
7. Activities that may count toward the accumulation of professional learning units are those that develop subject matter/content knowledge, pedagogical knowledge, pedagogical content knowledge, curriculum implementation knowledge or enhance educator effectiveness. These activities may be facilitated in many ways, including, but not limited to, third parties not regularly employed by the LEA and other educators regularly employed by the LEA such as a professional learning community focused on a professional problem of practice.
8. Activities that do not directly relate to improving educator practices, such as general logistics, school daily operations, safety trainings, and most committee work do not qualify for professional learning units. These are important activities for schools but are not considered professional learning.

- F. Assigning Unit Values to Activities- In order to recognize hours-based and competency-based professional learning experiences, RIDE will use professional learning units as its measure for documenting professional learning. Conversions will be needed to accommodate different learning activities.

1. One (1) hour of a professional learning activity is equal to one (1) professional learning unit. For tracking purposes, rounding to the nearest half-hour is appropriate.
2. One (1) college credit is equal to fifteen (15) professional learning units.
3. One (1) demonstrated competency in proficiency-based or competency-based learning is equal to five to ten (5-10) professional learning units, determined by the Superintendent based on the rigor of the competency expectations.
4. National Board Certification activities:
  - a. One (1) component is equal to forty-five (45) professional learning units.
  - b. Completion is equal to one hundred eighty (180) units.
  - c. Renewal is equal to ninety (90) units.

G.. RIDE will continue to study research-based competency approaches to certification renewal and will make future recommendations that reduce the reliance on a number of units and emphasizes growth in professional practice.

H. RIDE will engage with teachers unions and LEA leadership to provide model Professional Learning Plans and to review and evaluate the quality of professional learning experiences.

I. Record Keeping and Documentation

1. Educators must maintain records of all activities and make them available upon request by RIDE. All records must attest to participation by the educator in the activity and the professional learning units earned.
2. Employers verify locally that educators met renewal requirements. Documentation of verification shall be provided to the educator for certification renewal.
3. Educators must submit employer verification forms to RIDE as part of the renewal process.

J. Audits of Professional Learning Units

1. In order to ensure the efficacy of the professional learning unit system, RIDE will audit renewal applications each year.
2. Educators selected for audit must submit documentation for all activities submitted for certificate renewal.

3. Failure to submit required documentation will result in non-renewal of certificates.

### **1.8.5 Preliminary Certificates**

Laws § 16-11-4.

These Preliminary Certifications provide a basis for identifying the most qualified personnel for these vacancies.
- D. Employing agencies that hire educators working under a preliminary certificate shall evaluate and provide meaningful support to these educators.
