**MENTAL
HEALTH
FIRST AID**

These trainings are provided for FREE to Rhode Island school districts, charter schools, state-run schools, and educators through CRF grant funding.

Mental Health First Aid is a public education program that introduces participants to the risk factors and warning signs of mental illness, builds understanding of their impact, and overviews common support. Modules available include: **Youth** (adults assisting youth) or **Adult** (adults assisting adults) and meet all of the requirements of the National Council for Behavioral Health resulting in a 3-year certification.

Classes can be delivered in two different formats:

- **Classroom:** Eight hours of in-person instruction.
- **Virtual:** The newly implemented curriculum consists of two parts (two hours of self-paced training which **must be completed remotely** prior to attending four and a half hours of live training over zoom).
