Project Summary

The Smithfield School Department, with the support of the Town of Smithfield and RIDE-SBA, transformed its elementary schools to better serve its students and community. The process was guided by several overarching principles: To transform the current facilities to support 21st century education, create inclusive spaces that supported all students and to maximize RIDE reimbursement to align with the financial plan of the Town of Smithfield. After the plan was developed and approved by RIDE-SBA, the voters of Smithfield approved a bond referendum in the amount of $45,000,000. To that end, the following design requirements were determined to be the focus of this effort: 1) The realignment of the student population from four schools into three. This would include the shifting of students from the William Winsor school to the Anna McCabe School and the shifting of all Pre-K students to the LaPerche school. 2) The construction of approximately 80,000 SF of additions to support the changing student populations and provide space to include 21st century learning environments in the three remaining schools.

“Smithfield’s renovations and additions to its elementary schools did more than ensure that facilities were warm, safe and dry; the project ensured that these schools were also welcoming, flexible and inspiring places to teach and learn. Through careful oversight, construction was both on time and on budget, despite inevitable surprises that occur when floors are pulled up and walls are pulled down. The residents of the Town of Smithfield will enjoy these learning facilities, which also house gymnasiums and community spaces accessible to the entire community, for years to come.”

— Dr. Judy Paolucci, Superintendent of Schools
