This Project is a new, freestanding three-story building built at grade, with the first floor constructed on slab-on-grade, containing 100,419 gross square feet of space. The first floor is “U” shaped and contains approximately 41,421 SF, the second floor contains 30,010 SF and third level contains approximately 24,757 SF. There is a small basement space of approximately 4,421 SF below the special ed/student rooms in the southwest corner of the building. The north wing of the first floor contains scholastic offices, Pre-K and Kindergarten classrooms, a commons area, bathrooms and a special ed classroom. The west wing of the first floor contains office space, a special ed/student rooms and the cafeteria. The south wing of the first floor contains additional offices, bathrooms, the kitchen, associated storage spaces and the gymnasium. The second floor is stacked above the north and west wings of the building. This floor contains a commons space, the media center, and first, second and third grade classrooms. The third floor is stacked above the second floor and contains art/STEAM/music rooms, a commons space, offices and fourth and fifth grade classrooms.
“Henry J. Winters Elementary School currently being constructed has been designed with deliberate attention to detail of the most modern environment for authentic learning. Infused in the structure of the building is the STEAM philosophy, consistent with our curriculum focus of Science, Technology, Engineering, Arts and Mathematics. This newly constructed building will create a 21st century learning environment grounded in student inquiry, problem-solving and critical thinking, all of which will bring pride for the entire school and surrounding community.”

— Cheryl McWilliams, Ed.D, Superintendent
