RICAS Individual Student Report Videos

- RIDE is working with Pearson to develop student score report videos using individual student performance data for students in grades 3-8 who participated in RICAS last spring.
 - These engaging and easy to understand videos are offered in 11 different languages and provide clear insight into their child's performance on RICAS.
 - Sample videos can be viewed here: [English](#) [Spanish](#)
- Paper reports will still be printed and delivered to LEAs, however this digital companion offers an opportunity for increased engagement between families, educators, and students.
- A webinar was held to explain the score report videos, including how LEAs can distribute them to families. You can access the webinar recording and the file layout at www.ride.ri.gov/assessment-results. Click on the *RICAS Student Report Video Information* tab.

Best Practices for Selecting Your Testing Windows

1. Determine how many staff you will need *before* selecting your testing window.
2. Use as much of the state testing window as possible. Even if your school testing window is over, if you're within the state assessment window, you can continue testing.
3. Plan to test 100% of students in each content area.
4. Start as early in the state testing window as possible.
5. Leave the last week of the state testing window for make-up testing.
6. For PSAT and SAT:
 - Schedule your preadministration session *before the primary testing days*. This will help you identify technology issues and familiarizes staff and students with the testing platform.
 - Activities/schedules for non-tested grades may need to be approved by the superintendent so make requests *before January 2023*. This will give you time to develop and get approval for new plans.
