NAEP (*National Assessment of Educational Progress*). The NAEP assessments in reading, math, science, and other content areas are administered in even-numbered years. In odd-numbered years, the National Center of Education Statistics (NCES) asks states to administer international assessments to gather information on how students in the United States compare to students in other countries around the world. The chart below shows the international assessments, studies, and NAEP assessment field tests that will be administered in the 2022-23 school year.

Not all schools will be selected to participate in every test. More information will be available at the beginning of the school year. Rhode Island is not expected to participate in the Long-Term Trend but it is included anyway so you know all testing possibilities. More information on NAEP can be found at: www.ride.ri.gov/naep or <https://nces.ed.gov/>.

BEST PRACTICES FOR SELECTING YOUR SCHOOL AND DISTRICT TESTING WINDOWS

1. Determine how many staff you will need *before* selecting your testing window.
2. Use as much of the state testing window as possible. Even if your school testing window is over, if you're within the state assessment window, you can continue testing.
3. Plan to test 100% of students in each content area.
4. Start as early in the state testing window as possible.
5. Leave the last week of the state testing window for make-up testing.
6. For PSAT and SAT:
 - Schedule your preadministration session *before the primary testing days*. This will help you identify technology issues and familiarizes staff and students with the testing platform.
 - Activities/schedules for non-tested grades may need to be approved by the superintendent so make requests *before* January 2023. This will give you time to develop and get approval for new plans.
