In this report, you will find your child's results from the 2018 Rhode Island SAT tests. Your child took the SAT English language arts and mathematics tests in April, 2018, and this report shows whether your child met grade level expectations and is ready for college and careers. This test is just one measure of how well your child is performing academically.

For each subject, the report shows your child's score and achievement level. This report also provides information that compares your child's achievement, in each subject, to achievement at the school, district, and state levels, as well as information about how your child performed in the major areas of each test.

For more information on how to understand the results in this report, visit our website at www.ride.ri.gov/Assessment-Results.

How can I support my child's education?

- If your child's scores are in the *Not Meeting Expectations* or *Partially Meeting Expectations* achievement levels for either English language arts or mathematics, it is critical that you attend family-teacher conferences and discuss any concerns you may have.
- If your child is *Meeting Expectations* or *Exceeding Expectations*, consider having a conversation with your child's teacher to ensure your child remains challenged and engaged.
- School attendance matters. Make it a priority to get your child to school on time, every day.
- Establish daily reading routines in your home, and encourage your child to read for fun.
- At home, talk to your child about his or her day at school to reinforce the material being learned. Children whose families stress the value of education are more likely to find it important as well.
- Stay connected to your child's school. Get involved with a parent group, schedule regular parent-teacher conferences, and get to know your school community.
- Share your voice! Help improve your child's school by participating, every year, in SurveyWorks, Rhode Island's annual school culture and climate survey.
- Start a conversation. Ask questions. Talk to your child about what they're learning, and show an interest in the subjects that excite them.
