

Tools of the Mind

8.1 Edition (2020)

The Tools of the Mind curriculum is a state-endorsed Prekindergarten curriculum (ages 3-5), aligned with the 2013 Early Learning and Development Standards (RIELDS).

Tools of the Mind is a research-based early childhood model combining teacher professional development with comprehensive innovative curriculum that helps young children to develop the cognitive, social-emotional, self-regulatory, and foundational academic skills they need to succeed in school and beyond. Melding Vygotskian theory with cutting edge neuroscience research, Tools is a unique approach to teaching and learning with research demonstrated outcomes for children and teachers.

ADDITIONAL INFORMATION

Professional Learning
