

Transforming Education in Rhode Island

The Race to the Top Opportunity

Glocester Race to the Top Implementation Update: School Year 2012-2013 (Year 3)

The Annual Stocktaking provides both the state and the Local Education Agency (LEA) with an opportunity to review LEA accomplishments and challenges over the course of the Race to the Top (RTT) grant implementation period (i.e., from September 2010 to date). In this summary, RIDE has included relevant LEA-reported data as well as other evidence sources (e.g., training participation) for the purposes of reviewing programmatic successes. The contents of this report were developed under a Race to the Top grant from the U.S. Department of Education. However, those contents do not necessarily represent the policy of the U.S. Department of Education, and you should not assume endorsement by the Federal Government.

This report also includes areas that LEAs self-identified as challenges in their ability to meet Race to the Top commitments. Additionally, Appendix A provides a summary of LEA progress against the student achievement targets set at the start of the grant.

LEA Self-Assessment of Year Three Performance

The table below shows Glocester self-reported status against the Year 3 Race to the Top projects. During Year 3, Glocester has fully participated in the following projects: Model Curriculum and Intensive Curriculum Alignment, Formative Assessment professional development, Interim Assessments, the Instructional Management System, and Educator Evaluation.

In addition, Glocester has begun planning for the implementation of Data Use professional development in Year 4, as well as deepening engagement in the initiatives implemented during Year 3.

CURRICULUM ALIGNMENT				FORMATIVE ASSESSMENT PD				INTERIM ASSESSMENTS				INSTRUCTIONAL MANAGEMENT SYSTEM				DATA USE PD				EDUCATOR EVALUATION				NEW TEACHER INDUCTION			
Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4

ON-TRACK	The majority of tasks from the prior quarter are complete, and tasks from the current quarter are on-track to be completed.
DELAYED	Some tasks from the prior quarter are complete, but others have yet to be completed, and/or the district may have difficulty completing the current tasks in the anticipated time frame.
OFF TRACK	The majority of tasks anticipated to date have not been completed and/or the LEA is having significant challenges with some tasks.
NOT APPLICABLE	The district elected not to participate in this project during the 2012-2013 school year.

Summary of Performance Management Participation

As you know, participation in the Collaborative Learning for Outcomes (CLO) process and the submission of the corresponding quarterly progress report is our method for monitoring LEA progress against implementing RTT. More importantly, though, we believe that quality implementation of RTT is best supported through peer-to-peer sharing and that the CLO meetings provide LEAs with an opportunity to gain insights on how to address specific challenges of capacity and practice.

During the 2012-2013 year, Glocester met the bar for participation in all four quarterly CLO meetings. All quarterly progress reports were submitted on time, and Glocester sent consistent participants to the quarterly meetings, representing appropriate levels of LEA leadership.

As we near the end of the grant, we hope that Glocester continues to participate at this exemplary level. We are looking forward to continuing our meaningful conversations around the implementation accomplishments and challenges faced by each LEA, as well as discussing how LEAs are building the necessary capacity to sustain this work beyond Race to the Top. With that in mind, we encourage you to be an active voice in shaping the focus of these meetings during Year 4.

System of Support 1: Standards and Curriculum

Based on the quarterly progress reports submitted by Gloucester, as well as participation in additional applicable activities through the end of the 2012-2013 school year, we have assessed the district as 'on track (green),' 'delayed (yellow),' 'off track/at risk (red)', or 'not applicable (grey)' on each of the Year 3 System of Support 1 scope of work tasks for Race to the Top. This assessment is reflected in the table below. Please note that further description of these statuses can be found on page one of this report.

RIDE would like to commend Gloucester on its efforts to expand and deepen educator and administrator knowledge of the Common Core State Standards (CCSS). The district hosted professional development sessions throughout the year to continue curriculum alignment work. Additionally, educators from the district attended supplemental RIDE professional development on key instructional shifts, such as academic vocabulary and text complexity.

Gloucester has made significant progress against implementing a guaranteed and viable curriculum aligned to the new Common Core State Standards. In its progress reports, Gloucester noted that they selected team leaders from each grade level to be the point person for their grade. These team leaders met with the principals, superintendent and instructional coaches on a monthly basis to check on the progress and challenges of the curriculum alignment work. During the 2012-2013 school year, Gloucester was able to complete their math and ELA curriculum; however, the district noted that the creation and/or alignment of curriculum-based embedded assessments and grade-level assessments would be an ongoing process.

We commend Gloucester on their work in this area. We look forward to hearing about additional opportunities that Gloucester has created for further collaboration within their district, and their progress with creating assessments aligned to the new ELA and mathematics curriculum. In the upcoming school year, we encourage Gloucester to discuss their implementation challenges with their CLO colleagues.

Intensive Curriculum Alignment and Model Curriculum Development	Year 3:SY12-13			
	Q1	Q2	Q3	Q4
Develop and communicate a multi-year Transition Plan for the Common Core State Standards implementation, including clear expectations for school level transition benchmarks and a plan for developing a curriculum aligned to the CCSS in grades K-12	X	Modify as needed	Modify as needed	Modify as needed
Identify opportunities for educators to work collaboratively to deepen understanding of CCSS (e.g. Common Planning Time, grade level team, department meetings, faculty meetings)	X	Modify as needed	Modify as needed	Modify as needed
Create implementation plan, including the identification of aligned resources, to support roll out of new curricula	X	Modify as needed	Modify as needed	Modify as needed
Develop curriculum aligned to the Common Core State Standards, including participation in Dana Center curriculum writing and leadership sessions (if applicable)	X	X	X	X

**Please note: the 'X' in the above table represents the anticipated completion timeline set by RIDE, not when the district completed the task. Additionally, for further clarification on the criteria used to select each status, consult the description on page one of this report.*

System of Support 2: Instructional Improvement Systems

During the 2012-2013 school year, Gloucester chose to implement two of the four Race to the Top projects in System of Support 2 (Interim Assessments, and the Instructional Management System). Based on the quarterly progress reports submitted by Gloucester, as well as participation in additional applicable activities through the end of the 2012-2013 school year, we have assessed the district on each of the Year 3 scope of work tasks for those applicable projects.

During the 2012-2013 school year, Gloucester did not implement the Formative Assessment online professional development modules. Although they attended facilitator training at the beginning of the year, technical challenges and the time investment required by the modules caused the district to re-think their original implementation timeline. In their final quarterly progress update report, Gloucester indicated that they would begin to roll this out in summer 2013, with the expectation that the modules will be completed by the end of summer 2014.

Gloucester chose to implement the fixed-form Interim Assessments on a voluntary basis during the 2012-2013 school year for any teachers who wanted to participate. While difficulties with the Instructional Management System caused initial delays, the district was able to administer the tests to students in grades 3-5 in January and April 2013. RIDE would like to thank Gloucester for sharing their experience with the tests during the CLO meeting. The district's learnings around the vocabulary expectations for elementary students, as well as the technology skills required to complete the assessments online, provided important context to other districts looking to implement in the upcoming school year.

In addition to configuring the Instructional Management System (IMS) to provide educator access to both Interim Assessments and the Formative Assessment PD modules, Gloucester also attended training on the Exceed Rtl platform.

During the 2012-2013 school year, Gloucester did not participate in the Data Use professional development series. Based on the quarterly progress update report, Gloucester is on track to participate in this initiative in Year 4.

In the upcoming CLO sessions, we look forward to hearing about Gloucester's plans for implementing new initiatives, or deepening engagement in initiatives implemented during the 2012-2013 school year. Additionally, looking ahead towards the PARCC assessment, we hope to hear more from districts about how these initiatives are supporting their transition to the common core.

Interim Assessments (accessed via the Instructional Management System)	Year 3:SY12-13			
	Q1	Q2	Q3	Q4
Develop protocols or expectations regarding the use of interim assessment to inform instruction including timelines for administration and process for scoring and reporting results	X			
Send LEA-determined facilitators to RIDE provided training on both the Fixed-Form assessment tool and the test-building tool	Fixed Form	Test Builder		
Train of educators in the LEA on the administration and use of interim assessments utilizing RIDE-trained facilitators	X	X	X	X
Administration of Interim Assessments in selected grades and content area(s)	1 st Fixed Form Test	2 nd Fixed Form Test	3 rd Fixed Form Test	

Instructional Management System (IMS)	Year 3:SY12-13			
	Q1	Q2	Q3	Q4
Designate an LEA data steward to support decision making around data collections and systems implementation and to provide input and feedback on data initiatives through designated representatives	As needed	As needed	As needed	As needed
Maintain data quality standards of local student information systems and upload local assessment data and program information as required by RIDE in a timely manner	X	X	X	X
Following RIDE training, LEA Administrative Users and LEA Trainers configure the IMS for educator use and to provide end users with access and training needed to utilize the IMS for daily activities	X	X	X	X
Deepen the understanding and use of the IMS among all educators	X	X	X	X

'Data Use' Professional Development	Year 3:SY12-13			
	Q1	Q2	Q3	Q4
In coordination with RIDE, select 'Data Use' training dates for each cohort of schools, as applicable				Year 2
Identify and provide RIDE with the leadership team members from each school who will participate in Year 2 training cohorts, as applicable				Year 2
Following 'Data Use' professional development, identify district and school practices to sustain and deepen data use and collaboration	Year 1	Year 1	Year 1	Year 1

* Please note that, for this project, 'year 1' refers to cohort 1 taking place during the 2012-2013 school year, and 'Year 2' refers to cohort 2 taking place during the 2013-2014 school year.

Formative Assessment Professional Development Modules (accessed via the Instructional Management System)	Year 3:SY12-13			
	Q1	Q2	Q3	Q4
Identify facilitators who will support the implementation of formative assessment practices in daily instruction				SY13-14
Coordinate participation of educators in training modules and communities of practice	SY12-13	SY12-13	SY12-13	SY13-14

System of Support 3: Educator Effectiveness

During the 2012-2013 school year, Glocester fully implemented all components of System of Support 3 - the Rhode Island model for teacher and building administrator evaluations; and final effectiveness ratings for all teachers and building administrators have been submitted to RIDE using the Educator Performance and Support System. Based on the quarterly progress reports submitted by Glocester, as well as participation in additional applicable activities through the end of the 2012-2013 school year, we have assessed the district on each of the Year 3 scope of work tasks for Educator Evaluation.

To support the educator evaluation implementation process, Glocester established a memorandum of agreement with their educators. Glocester also noted that their Intermediary Service Provider (ISP) was a helpful resource in assisting principals with the evaluation work.

During the 2012-2013 school year, Glocester participated in all required training activities. In their quarterly progress update reports, Glocester noted that their principals worked together to complete the online calibration training in order to ensure that all evaluators in the district were aligned. The district has also started to register/attend training in preparation for the 2013-2014 school year. Looking ahead, RIDE would like to remind the district of their responsibility to ensure that all personnel responsible for evaluating both teachers and building administrators participate in applicable training activities.

As we enter into the final year of the Race to the Top grant, RIDE encourages Glocester to continue to engage their CLO peers in thinking about continuous support for evaluation implementation, as well as how evaluation data is being used to identify professional development needs.

Educator Evaluation	Year 3:SY12-13			
	Q1	Q2	Q3	Q4
Participate in educator evaluation model design, development and refinement feedback opportunities	X	X	X	X
Identify District Evaluation Committee members, responsible for monitoring the implementation of the system and providing recommendations to LEA leadership teams				X
Identify individuals who will serve as primary and, if applicable, secondary/complementary evaluators				X
Send all required evaluators to RIDE-provided evaluator training on model; Send evaluators and system administrators to training on the Educator Performance Support System (EPSS) data system			Mid-year half-day training	Mid-year half-day training
Examine LEA Policies and Contracts for Challenges; where applicable, consider memorandums of understanding or contract renewal language which will support district implementation of evaluations	X	X	X	X
Create a plan for the appropriate use of funds to support implementation of educator evaluation system				X
Complete required components of RI Model for educator and building administrator evaluations	SLOs and Goals	Midyear Conference	Midyear Conference	EOY Report & Summative rating
Submit evaluation data and documentation (e.g. component and summative level ratings, verified rosters); provide other requested information to support RIDE research and system improvement	X	X	X	X
Use Evaluation Data to identify individual and school/district-wide professional development needs and act on those needs			X	X

System of Support 4: Human Capital Development

During the 2012-2013 school year, Gloucester did not have any new teachers; therefore, the district did not participate in the Beginning Teacher Induction program. Additionally, Gloucester has continued their utilization of SchoolSpring for recruitment of staff on an as needed basis.

In the upcoming CLO sessions, RIDE looks forward to engaging in a deeper conversation around the revisions that Gloucester and other LEAs have made to their hiring policies, timelines, and processes in order to support broader human capital initiatives including recruitment of highly qualified and diverse candidates and providing data-driven induction support to beginning teachers.

Beginning Teacher Induction	Year 3:SY12-13			
	Q1	Q2	Q3	Q4
If applicable, recommend potential Induction Coaches to RIDE				X
Review and revise hiring policies, timelines and processes in order to support appropriate and timely projections for anticipated hires requiring induction coach services			X	
Provide RIDE with list of beginning teachers who will receive Induction Coach support in a timely manner in order to ensure that all beginning teachers have coaching	X			X
Participate in RIDE-provided information opportunities in order to learn about induction coach program				X
Provide feedback to RIDE on the development and integration of existing mentorship programs into a sustainable, instructionally-focused state or district-wide Induction Coach model			X	X
