****Carryover Funds**

Carryover funds represents funding not expended by the District's by the end of the Fiscal Year. Carryover funds are different from uncommitted funds and are considered available funds in addition to uncommitted funds (see above).

Starting at the end of FY20 - all funds not expended by a District will be carried forward for that District.

Carryover funds will not be available to a District until Final Expenditure Reports (FER) have been submitted and approved by RIDE Finance. The process takes place at the end of each Fiscal Year. Carryover funds are generally available to the respective Districts during the amendment period.
