# Section C. ILP Menu of RIDE-Approved Vendors

## About the Individual Learning Plan

The individual learning plan (ILP) is a student-directed academic and career planning tool that personalizes academic and training pathways beginning in middle school. The ILP is a living electronic portfolio that is required to follow each student from Grade 6 to Grade 12 and is accessed through the ILP electronic platform. Both the 2016 Secondary School Regulations and the state’s career readiness action plan, PrepareRI, identify the ILP as the backbone of personalization and relevance of a student’s education. By the 2020–21 academic year, all middle and high schools will have either adopted an ILP system from the state-vetted menu or developed their own ILP system and curriculum model that meet the state’s expectations.

## Introduction to the Menu

In fall 2017, RIDE issued a request for proposals for vendors that could provide a comprehensive ILP system and curriculum. A review team, supported by several school and district staff serving as technical advisors, considered vendor proposals. This process culminated in a menu of vendors that schools and/or districts may choose from as they implement or revise the ILP programs for their students. Schools and districts have the option of adopting a vendor from the menu or proposing an alternative solution through a state-vetting process. All schools and districts are required to adopt a vendor no later than the 2020–21 school year. In developing the menu, RIDE sought to include turnkey providers of both systems and curriculum. RIDE will also be developing a list of complementary resources that schools can use to enhance the student ILP experience.

## How to Use This Document

At this time, RIDE has approved four vendors for the ILP Menu. The following pages are intended to provide commonly asked technical information about each vendor, including information about the vendor’s curriculum, technological functionality, and cost. As vendors are added, additional overviews will be included. Districts can use the Section E: ILP District Decision Rubric Tool to compile information about the different vendor platforms to support their decision-making (see <https://www.ride.ri.gov/StudentsFamilies/EducationPrograms/SchoolCounseling.aspx#16611424-individual-learning-plans>). If you have questions regarding each platform, you can communicate with the vendor contact or with the Office of College & Career Readiness at RIDE via e-mail at [occr@ride.ri.gov](mailto:occr@ride.ri.gov)
