FY 21 Title IV, Part A Personalized Learning Grants
Request for Applications

Overview
The Rhode Island Department of Education has allocated Title IV, Part A: Student Support and Academic Enrichment Grant (Title IV-A) funds for Personalized Learning Grants. LEAs may apply for up to $50,000 to design, expand and/or implement strategies that increase student access to personalized, rigorous learning experiences for K-12 students.

LEAs with high levels of poverty will be prioritized for participation in this opportunity. A maximum of nine grants of up $50,000 each will be awarded. LEAs may use these grants to start or supplement initiatives that increase student access to personalized, rigorous learning experiences in one of the Title IV-A content areas: well-rounded education, safe and healthy students and effective use of technology. Funds are not intended for technology infrastructure; they should focus on supplemental programs and activities.

Successful proposals will demonstrate how the applicant will increase student access and participation in personalized learning experiences, including multilingual and differently abled learners; improve academic outcomes for students; and/or increase the capacity of stakeholders to deliver and support personalized student learning experiences.

Eligible Applicants
Any LEA that received a Title IV, Part A allocation for the 2020-2021 school year is eligible to apply for these funds.

Period of Performance
The grant period for these funds is April 19, 2021 to September 30, 2021 and activities are subject to meeting all requirements for Title IV-A. All goods and services must be received and all activities and purchases for this budget period must be expended prior to September 30, 2021.

Funding
Grants will be awarded on a competitive basis, with maximum awards of $50,000. The final amount of individual grants awarded will be contingent upon negotiations, up to the level of funding requests, and RI Department of Education reserves the right to negotiate the budget amounts accordingly.

Funds are not eligible for carryover. All funds must be expended by September 30, 2021.

Providing Equitable Services
Successful applicants will need to provide equitable services to eligible private schools.

LEAs must consult with any eligible non-public schools, that are physically located and operated within the geographic boundaries of the district, to determine if they are interested in participating in the LEA’s grant. Funds for equitable services to private schools must be calculated and set aside as part of the application
process. LEAs may wait to see if they are successful before planning allowable activities with participating private schools.

Participation by private schools is not dependent upon its prior participation in any other federally funded programs with equitable provisions.

**Grant Requirements**

LEA’s receiving funding through this grant program must:

- meet the eligibility requirements for the grant described herein;
- provide all required assurances that it will comply with all program implementation requirements;
- meet all program outcome and fiscal reporting requirements;
- use these funds as described in the LEA’s application;
- implement the activities described in the LEAs application within the required timeline; and
- participate in meetings, as needed, to discuss goals and objectives, implementation progress and programmatic success and effectiveness.

**Unauthorized Activities**

The FY21 Personalized Learning Grant funds may supplement, not supplant, existing programs within the LEA. In other words, funds may not use used to pay for existing levels of activities or services if the costs of those activities would have otherwise been paid with state or local funds in the absence of the grant.

The FY 21 Personalized Learning Grant applicants shall also not use funds for the following:

- to purchase technology infrastructure or equipment;
- for new construction, renovation, or repair of any school facility;
- for transportation unless otherwise authorized under ESSA – See RIDE FAQs for allowable uses under Title IV-A in the Accelegrannts document library;
- to develop or distribute materials, or operate programs or courses of instruction directed at youth, that are designed to promote or encourage sexual activity, whether homosexual or heterosexual;
- to distribute or to aid in the distribution by any organization of legally obscene materials to minors on school grounds; to provide sex education or HIV-prevention education in schools unless that instruction is age appropriate and includes the health benefits of abstinence;
- to operate a program of contraceptive distribution in schools;
- for medical services or drug treatment or rehabilitation, except for integrated student supports, specialized instructional support services, or referral to treatment for impacted students, which may include students who are victims of, or witnesses to, crime or who illegally use drugs (Title IV-A, ESSA Section 4001(b)); or
- to require a child to obtain a prescription for a controlled substance, as defined in section 102 of the Controlled Substance Act (21 U.S.C. 802) as a condition of: receiving an evaluation or other services described under this title; or attending a school receiving assistance under this title (Title IV-A, ESSA Section 4001(c)).
