Culture-Language Interpretive Matrix

<http://facpub.stjohns.edu/~ortiz/CLIM/>

- To help determine the extent to which differences in developmental language proficiency and acculturative learning opportunity may have affected the validity of scores obtained from standardized tests of special education. The CLIM is not a diagnostic tool, but it may help to answer the difference versus disorder question which is central to special education eligibility considerations.

No cost CLIM fillable form with graphing:

Portland State University – information on languages and cultures

Search by language to locate information on phonology, morphology, syntax, semantics and more to build understanding of how patterns in a particular language may manifest in individuals from culturally and linguistically diverse backgrounds.

<https://www.pdx.edu/multicultural-topics-communication-sciences-disorders/languages>

Search by ethnic group, country or culture to better understand the international cultural perspective to build understanding of how values and belief systems may affect your interactions.

<https://www.pdx.edu/multicultural-topics-communication-sciences-disorders/cultures-countries>

For information when considering the implication of an individual's US culture (Native American, African American, and more): <https://www.pdx.edu/multicultural-topics-communication-sciences-disorders/other-us-cultures-and-topics>

RITELL Languages of RI

The Languages of RI Project was completed by the graduate students of the M.Ed. in TESL Program at Rhode Island College to aid RI teachers in understanding the distance students are traveling from their native languages and countries to English in the United States. Each powerpoint consists of approximately 12 slides with information about orthography and structure, natural errors made in English coming from that language, cross-cultural communication style, educational opportunities in home country, and more. <http://www.ritell.org/Language-and-Country-Projects/>

WIDA tools <https://wida.wisc.edu/> to find CAN DO descriptors, performance definitions, and standards frameworks for both DLL and school age ELS
