Intent to Submit a District Developed Educator Evaluation System

(Due January 15 for Fall Implementation)

We have reviewed the Educator Evaluation System Standards and Rubrics and the Guidelines for Obtaining System Approval from RIDE.

We will incorporate the Student Learning Objective Rating and the associated process provided by RIDE.

We will design the Professional Practice and Professional Responsibilities components in a way that meets the Educator Evaluation Standards and results in a rating that is consistent with the points and percentages provided by RIDE.

We will follow RIDE's points-based approach to combine the Student Learning rating, Professional Practice rating, and Professional Responsibilities rating to assign an overall educator rating of Highly Effective, Effective, Developing or Ineffective and report these ratings annually to RIDE.

We will submit a design plan according to the specifications in the Guidelines for Obtaining System Approval from RIDE no later than March 15.

We understand that if the proposal is not approved by RIDE by June 15 we will be required to retain the Rhode Island Model.
