# **Transforming Education in Rhode Island**

# The Race to the Top Opportunity

### Foster-Glocester Race to the Top Implementation Update: School Year 2012-2013 (Year 3)

The Annual Stocktaking provides both the state and the Local Education Agency (LEA) with an opportunity to review LEA accomplishments and challenges over the course of the Race to the Top (RTT) grant implementation period (i.e., from September 2010 to date). In this summary, RIDE has included relevant LEA-reported data as well as other evidence sources (e.g., training participation) for the purposes of reviewing programmatic successes. The contents of this report were developed under a Race to the Top grant from the U.S. Department of Education. However, those contents do not necessarily represent the policy of the U.S. Department of Education, and you should not assume endorsement by the Federal Government.

This report also includes areas that LEAs self-identified as challenges in their ability to meet Race to the Top commitments. Additionally, Appendix A provides a summary of LEA progress against the student achievement targets set at the start of the grant.

#### LEA Self-Assessment of Year Three Performance

The table below shows Foster-Glocester self-reported status against the Year 3 Race to the Top projects. During Year 3, Foster-Glocester has fully participated in the following projects: Model Curriculum and Intensive Curriculum Alignment, Educator Evaluation, and New Teacher Induction.

In addition, Foster-Glocester has begun planning for the implementation of the remaining Year 4 projects (i.e., Formative Assessment professional development, Interim Assessments, Data Use professional development) and, as applicable, New Teacher Induction.

		JRRIG					IATIV MENT		A		ERIM SMEN	TS		ISTRU IANA SYS			D	ATA	USE P	D			CATO UATIC			EW T INDU		
Q	1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4

ON-TRACK	The majority of tasks from the prior quarter are complete, and tasks from the current quarter are on-track to be completed.					
DELAYED	Some tasks from the prior quarter are complete, but others have yet to be completed, and/or the district may have difficulty completing					
	the current tasks in the anticipated time frame.					
OFF TRACK	The majority of tasks anticipated to date have not been completed and/or the LEA is having significant challenges with some tasks.					
NOT APPLICABLE The district elected not to participate in this project during the 2012-2013 school year.						

#### **Summary of Performance Management Participation**

As you know, participation in the Collaborative Learning for Outcomes (CLO) process and the submission of the corresponding quarterly progress report is our method for monitoring LEA progress against implementing RTT. More importantly, though, we believe that quality implementation of RTT is best supported through peer-to-peer sharing and that the CLO meetings provide LEAs with an opportunity to gain insights on how to address specific challenges of capacity and practice.

During the 2012-2013 year, Foster-Glocester met the bar for participation in all four quarterly CLO meetings. All quarterly progress reports were submitted on time, and Foster-Glocester sent consistent participants to the quarterly meetings, representing appropriate levels of LEA leadership.

As we near the end of the grant, we hope that Foster-Glocester continues to participate at this level. We are looking forward to continuing our meaningful conversations around the implementation accomplishments and challenges faced by each LEA, as well as discussing how LEAs are building the necessary capacity to sustain this work beyond Race to the Top. With that in mind, we encourage you to be an active voice in shaping the focus of these meetings during Year 4.

#### System of Support 1: Standards and Curriculum

Based on the quarterly progress reports submitted by Foster-Glocester, as well as participation in additional applicable activities through the end of the 2012-2013 school year, we have assessed the district as 'on track (green),' 'delayed (yellow),' 'off track/at risk (red)', or 'not applicable (grey) on each of the Year 3 System of Support 1 scope of work tasks for Race to the Top. This assessment is reflected in the table below. Please note that further description of these statuses can be found on page one of this report.

RIDE would like to commend Foster-Glocester on its efforts to expand and deepen educator and administrator knowledge of the Common Core State Standards (CCSS). In its progress reports, Foster-Glocester noted that they contracted with the East Bay Educational Collaborative to provide professional development to their teachers.

Foster-Glocester has made progress against implementing a guaranteed and viable curriculum aligned to the new Common Core State Standards. During the 2012-2013 school year, Foster-Glocester's Director of Curriculum, Instruction, and Assessment worked with the Southern Collaborative (SORICO) group at the middle and high school levels to deepen understanding of the ELA common core state standards and to write an aligned curriculum.

We commend Foster-Glocester on their work in this area, and are happy to hear that Foster-Glocester has found access to expertise in other district's valuable. We look forward to hearing about additional opportunities that Foster-Glocester has created for further collaboration within their district and across the southern districts.

ensive Curriculum Alignment and Model Curriculum Development		Year 3:SY12-13					
	Q1	Q2	Q3	Q4			
Develop and communicate a multi-year Transition Plan for the Common Core State Standards implementation, including clear expectations for school level transition benchmarks and a plan for developing a curriculum aligned to the CCSS in grades K-12	x	Modify as needed	Modify as needed	Modify as needed			
Identify opportunities for educators to work collaboratively to deepen understanding of CCSS (e.g. Common Planning Time, grade level team, department meetings, faculty meetings)	x	Modify as needed	Modify as needed	Modify as needed			
Create implementation plan, including the identification of aligned resources, to support roll out of new curricula	х	Modify as needed	Modify as needed	Modify as needed			
Develop curriculum aligned to the Common Core State Standards, including participation in Dana Center curriculum writing and leadership sessions (if applicable)	x	х	х	х			

\*Please note: the 'x' in the above table represents the anticipated completion timeline set by RIDE, not when the district completed the task. Additionally, for further clarification on the criteria used to select each status, consult the description on page one of this report.

#### System of Support 2: Instructional Improvement Systems

During the 2012-2013 school year, Foster-Glocester chose not to implement the four Race to the Top projects in System of Support 2. Based on the quarterly progress reports submitted by Foster, as well as participation in additional applicable activities through the end of the 2012-2013 school year, we have assessed the district on each of the Year 3 scope of work tasks for those applicable projects.

During the 2012-2013 school year, Foster-Glocester did not implement the Formative Assessment online professional development modules. In their quarterly progress update report, the district noted that they have been working with RIDE to determine the most successful implementation plan, and that they intend to roll the modules out following RIDE's planned improvements to the system. We look forward to Foster-Glocester's participation in Year 4.

Foster-Glocester submitted the school year 2012-2013 teacher-course-student data and completed initial configuration of the Instructional Management System so that educators could access the curriculum and assessment tools. While the district attended initial training on the Interim Assessments as well as the Instructional Management System, they determined that delaying implementation until the 2013-2014 school year would be more effective. As Foster-Glocester plans for implementation in upcoming school year, we welcome any questions, and hope that we can be of assistance.

Foster-Glocester will participate in the Data Use professional development training in the 2013-2014 school year. RIDE appreciates that, in their quarterly updates, Foster-Glocester shared some of the professional development activities that they do on their own in the district. We hope that the Data Use professional development will pair nicely with the protocols and processes already in place.

In the upcoming CLO sessions, we look forward to hearing about Foster-Glocester's plans for implementing these new initiatives. Additionally, looking ahead towards the PARCC assessment, we hope to hear more from districts about how these initiatives are supporting their transition to the common core.

terim Assessments (accessed via the Instructional Management System)		Year 3:SY12-13				
interin Assessments (accessed via the instructional Management System)	Q1	Q2	Q3	Q4		
Develop protocols or expectations regarding the use of interim assessment to inform instruction including timelines for administration and process for scoring and reporting results	x					
Send LEA-determined facilitators to RIDE provided training on both the Fixed-Form assessment tool and the test-building tool	Fixed Form	Test Builder				
Train of educators in the LEA on the administration and use of interim assessments utilizing RIDE-trained facilitators	х	х	Х	Х		
Administration of Interim Assessments in selected grades and content area(s)	1 <sup>st</sup> Fixed Form Test	2 <sup>nd</sup> Fixed Form Test	3 <sup>rd</sup> Fixed Form Test			

tructional Management System (IMS)		Year 3:SY12-13					
	Q1	Q2	Q3	Q4			
Designate an LEA data steward to support decision making around data collections and systems implementation and to provide input and feedback on data initiatives through designated representatives	As needed	As needed	As needed	As needed			
Maintain data quality standards of local student information systems and upload local assessment data and program information as required by RIDE in a timely manner	х	х	х	х			
Following RIDE training, LEA Administrative Users and LEA Trainers configure the IMS for educator use and to provide end users with access and training needed to utilize the IMS for daily activities	х	х	х	х			
Deepen the understanding and use of the IMS among all educators	Х	Х	Х	Х			

a Use' Professional Development		Year 3:SY12-13					
	Q1	Q2	Q3	Q4			
In coordination with RIDE, select 'Data Use' training dates for each cohort of schools, as applicable				Year 2			
Identify and provide RIDE with the leadership team members from each school who will participate in Year 2 training cohorts, as applicable				Year 2			
Following 'Data Use' professional development, identify district and school practices to sustain and deepen data use and collaboration	Year 1	Year 1	Year 1	Year 1			

\* Please note that, for this project, 'year 1' refers to cohort 1 taking place during the 2012-2013 school year, and 'Year 2' refers to cohort 2 taking place during the 2013-2014 school year.

Formative Assessment Professional Development Modules (accessed via the Instructional Management System)		Year 3:S	Y12-13		
ronnative Assessment rioressional Development wouldes (accessed via the instructional wanagement system)	Q1	Q2	Q3	Q4	
Identify facilitators who will support the implementation of formative assessment practices in daily instruction				SY13-14	
Coordinate participation of educators in training modules and communities of practice	SY12-13	SY12-13	SY12-13	SY13-14	

#### System of Support 3: Educator Effectiveness

During the 2012-2013 school year, Foster-Glocester fully implemented all components of System of Support 3 - the Rhode Island model for teacher and building administrator evaluations; and final effectiveness ratings for all teachers and building administrators have been submitted to RIDE using the Educator Performance and Support System. Based on the quarterly progress reports submitted by Foster-Glocester, as well as participation in additional applicable activities through the end of the 2012-2013 school year, we have assessed the district on each of the Year 3 scope of work tasks for Educator Evaluation.

In their quarterly progress update forms, Foster-Glocester noted that the leadership team placed a heavy emphasis on the educator evaluation process. During their regular meetings and summer planning sessions, the leadership team discussed the progress and challenges of implementation. The team also sought to increase cohesion among all the initiatives by incorporating elements of the evaluation process into nearly all other district initiatives, programs, and commitments.

To increase educator understanding of the model revisions, administrators provided workshops. The district chose not to utilize the Educator Performance and Support System (EPSS) to streamline the evaluation process; however, evaluators submitted all final effectiveness ratings using the EPSS. Additionally, the district reported that evaluators systematically collected and analyzed evaluation data in order to plan professional development activities.

During the 2012-2013 school year, Foster-Glocester evaluators participated in training activities provided by RIDE. The district has also started to register/attend training in preparation for the 2013-2014 school year. Looking ahead, RIDE would like to remind the district of their responsibility to ensure that all personnel responsible for evaluating both teachers and building administrators participate in applicable training activities. In the upcoming school year, we hope that Foster-Glocester continues to share the strategies and resources it is using to support the evaluation process.

As we enter into the final year of the Race to the Top grant, RIDE encourages Foster-Glocester to continue to engage their CLO peers in thinking about continuous support for evaluation implementation, as well as how evaluation data is being used to identify professional development needs.

Educator Evoluction		Year 3	:SY12-13

information to support RIDE research and system improvement	х	Х	Х	х
Use Evaluation Data to identify individual and school/district-wide professional development needs and act on those needs			х	х

#### System of Support 4: Human Capital Development

During the 2012-2013 school year, Foster-Glocester participated fully in the Beginning Teacher Induction program. Based on the quarterly progress reports submitted by Foster-Glocester, as well as participation in additional applicable activities through the end of the 2012-2013 school year, we have assessed the district on each of the Year 3 scope of work tasks for Beginning Teacher Induction. Additionally, Foster-Glocester has continued their utilization of SchoolSpring for recruitment of staff on an as needed basis.

During the 2012-2013 school year, beginning teachers in Foster-Glocester participated in the Beginning Teacher Induction program. In their quarterly progress update report, the district indicated that they have developed a system for human capital development that both addresses the needs and mission of the district while also supporting the Race to the Top initiatives.

In the upcoming CLO sessions, RIDE looks forward to engaging in a deeper conversation around the revisions that Foster-Glocester and other LEAs have made to their hiring policies, timelines, and processes in order to support broader human capital initiatives including recruitment of highly qualified and diverse candidates and providing data-driven induction support to beginning teachers.

inning Teacher Induction		Year 3:SY12-13					
	Q1	Q2	Q3	Q4			
If applicable, recommend potential Induction Coaches to RIDE				х			
Review and revise hiring policies, timelines and processes in order to support appropriate and timely projections for anticipated hires requiring induction coach services			х				
Provide RIDE with list of beginning teachers who will receive Induction Coach support in a timely manner in order to ensure that all beginning teachers have coaching	х			х			
Participate in RIDE-provided information opportunities in order to learn about induction coach program				х			
Provide feedback to RIDE on the development and integration of existing mentorship programs into a sustainable, instructionally- focused state or district-wide Induction Coach model			х	х			

The contents of this report were developed under a Race to the Top grant from the U.S. Department of Education. However, those contents do not necessarily represent the policy of the U.S. Department of Education, and you should not assume endorsement by the Federal Government.

## **Appendix A: Overall District Goals and Performance Measures**

The table below contains each district's previously established performance measures. These measures provide the state and district with a baseline from which to monitor progress, be held accountable, and recognize success as we advance toward our goals. <u>Please note</u>: The RTT accountability goals set below are separate and performance against those goals does not have an impact on the state-wide accountability system. Additionally, since setting the goals, the US Department of Education has requested that the state revise its goals on college enrollment and college course completion. Therefore, at this time, we have not updated your progress towards these post-secondary goals. Each district has an opportunity to review their current data and revise the goals to better align with the state goals on these measures.

Foster Glocester Performance Measures	2009- 2010		010- 011	-	)11- )12		)12- 013		013- 2014	2014- 2015
